

Star of Space 287

Chapter 287 I'm so angry!

Have you ever seen someone who was so tired that he was still breathing heavily when he returned to his yard? She is the only one here.

"Why is it so difficult to find a flatter stone? I shouldn't have gone to the mountain to look for it!"

After walking so much, I picked up half a basket of wild eggs, but I didn't see any rocks that I liked. They were all either huge or thin and long.

In short, these stones all have one thing in common, they are all strangely shaped, but there is no flat stone like she wants!

"Grandma, what did the doctor say?"

When I returned home to my yard, I saw my third aunt picking vegetables in the yard, but Lin Baiyi and the bullock cart were not there, so I knew that he had gone to give someone away.

She belongs to Lu Qiubo.

"snort!"

When Lu Qiubo heard her words, he snorted as if he was very angry.

"Your third uncle doesn't know what's going on. What kind of doctor is that? Those words make me angry to death!"

"Um?"

Lin Caisang was confused and looked at his eldest brother Lin Changhong aside.

When Lin Changhong saw her looking towards him, he quickly pulled her aside and the two of them murmured.

"What's going on? Brother, why is grandma so angry?" she asked her eldest brother.

"Don't mention it, grandma is just trying to avenge you," Lin Changhong said.

Hearing this, Lin Caisang was even more confused.

She wasn't at home, how could this matter still have something to do with her? Could this be the so-called halo of the protagonist, but why did she feel that such a big pot fell from the sky?

Fortunately, she didn't ask, and Lin Changhong started talking.

"It's also the third uncle who doesn't know how to do things. Didn't you give her three prescriptions? The third uncle first went to a pharmacy to grab the medicine, and then went to another pharmacy to hire a doctor."

Lin Caisang: "!!!"

She really didn't expect that her third uncle could do something like this!

"Then it's probably because the doctor from the third uncle's hospital who got the medicine went out for a consultation and didn't come back."

Lin Baiyi would not do such a thing. He must have had no choice but to go to another place to invite him.

"Who says it isn't?"

Lin Changhong snorted lightly, thinking of that doctor, he really felt that he was nothing.

"The doctor was quite happy when he saw our family bringing him over in an ox cart. He checked Third Aunt's pulse and said a nice word. But when he was about to prescribe the medicine, he saw Third Uncle taking the medicine. After I came out with the medicine I caught, my dear, the doctor with a dark face at that time was as good as the bottom of the pot in our family.

He actually said that our third aunt has a baby, this baby is very dangerous, it's best not to have it! "

"Did that person really say that?"

When Lin Caisang heard this, he understood immediately.

Anyone who hears such words can't help but get angry. No wonder Ah Nai is so angry that she doesn't even want to talk to her anymore. The third aunt is carrying her own grandson in her belly.

"If a doctor does this job, he probably won't have a future," she said.

"that is."

Lin Changhong nodded.

"He also said...don't treat every cat or dog's prescription as a treasure, because it might poison someone to death, and it would be too late to regret it. Grandma became angry after hearing what he said. I got into a fight with him."

That was a prescription prescribed by her granddaughter. Could she not believe her granddaughter?

What's more, the third uncle just said a few words at that time, and the person who gave the medicine said that the prescription was good. Comparing the two, and looking at the doctor's face, Grandma's temper immediately exploded.
