

Star of Space 302

Chapter 302 Her brother's ultimate move

"I've been a little tight recently. I have some spare time to get some elixirs, and I want to try the water. []" Lin Caisang replied without hiding anything.

"What kind of elixir do you want to get?" Ya Molian asked.

"What are you here for?"

Lin Caisang asked him back, but did not answer his question.

Why should he answer her questions when he asks them, and her questions can be ignored by him? Can't he just ask and answer them at the same time?

"Do you want to go out?" Ya Molian asked her.

Lin Caisang: "!!!"

Her eldest brother was born by her father specifically to trick her sister, right?

Such a trivial matter could actually be brought to Ya Molian's side. Now she really doubted whether she was Lin Changhong's sister, or Ya Molian was his eldest brother!

Fortunately, she still felt that she had cheated her brother, so she finally said this in her heart. Unexpectedly, her brother's ultimate move was waiting for her here!

"Yes, I want to go out.

Now that her brother has confessed to Ya Molian, and she and Ya Molian are so 'familiar', there is nothing to hide.

"I met a sick person recently. It's a very strange disease. I want to study it, but... grandma is watching me at home. I can't go out. Is there anything you can do?"

"Patient? Where is he?" Ya Molian asked her.

Patient, or a strange patient, why didn't he get the news? This girl lies again without drafting.

Hearing this, Lin Caisang raised his hand and pointed at his head, "It's in my head."

Unless her brain was abnormal, how could she tell Ya Molian that the patient she wanted to treat was in Jian'an City, who knows how far away from here. If he asked her how she knew this person, she would how to answer.

Ya Molian didn't ask any more questions. Since she didn't want to say anything, he didn't ask.

"It's not impossible to go out, but... if you don't come back at night, it will be difficult for your grandma to explain." Not only Lu Qiubo, but also the rest of the Lin family didn't know what explanation they could give.

"Don't worry, I will definitely be back in the evening." Lin Caisang said immediately.

She has such a good channel. Can she come back at night? It's just not easy to do during the day. Could Ya Molian really have a way?

"Do you really have a way?"

she asked him.

"There is a way, it just depends on how to do it." Ya Molian looked at her steadily and said.

"Um?"

Lin Caisang didn't understand what he meant.

As long as she can go out during the day, whatever else she does is her own business.

"what do you mean?"

"Didn't Zhong You 'lose his memory'?" Ya Molian reminded her.

"nonsense."

Lin Caisang rolled her eyes at him. Could she not know whether Zhong You had lost his memory? She also hoped that Zhong You had really lost his memory, so that she would not have to worry about the Zhong family's troubles every day when she was missing her home.

She was still thinking about when she would take Zhong You to Zhong's house to resolve the matter completely.

Otherwise, if she had such an absent-minded apprentice, she would be worried about going out to see a doctor and curing someone to death. She couldn't bear this responsibility.

"I have a medical book here, which says it can cure forgetfulness. It's just that there are some medicinal materials in it that are hard to find. As a person who doesn't understand medicine, I shouldn't be able to find them all over the mountain."

She heard Ya Molian say this again.

"Yes, going up the mountain to find medicine is a good name. We are here to save people." Lin Caisang clapped his hands together and felt that this idea was really good.
