

Star of Space 303

Chapter 303 Those all-pervasive eyes

However, she thought of another thing. Her grandma was not someone who could be easily fooled. Maybe the excuses she found would not work with her grandma?

"What if grandma doesn't let me go up the mountain to find medicine?" she asked.

"Of course you can't do it alone, but it will be different if someone accompanies you." Ya Molian raised his eyebrows and said.

Lin Caisang: "..."

After talking for so long, it turned out that he wanted her to take him with her, right?

"No, I can't take you." She refused.

Take him with you? How? Take him to the Jinzhu Space, and go to Jian'an City together after accepting the task? Then what secrets does she have?

Unless she is seriously ill, she will take him with her.

"Hmm?"

Hearing her categorical rejection, Ya Molian raised his eyebrows and looked at her.

That look seemed to tell her that if she didn't take him with her, would her grandma agree to let her go out? That was absolutely impossible!

Lin Caisang was silent for a while.

Well, she admitted that Ya Molian's method was really the best one she thought of now, otherwise how could she go out? How could she upgrade the Golden Pearl Space to Level 2.

She also wanted to open the breeding system quickly, so that the ice silkworms in the Golden Pearl Space would be so troublesome to raise.

Moreover, she also wanted to raise more other animals, such as chickens and ducks? Pigs and sheep? Fish and shrimp? Or even more animals, which were clearly in front of her and within her reach.

As long as she agreed to Ya Molian and asked him to follow, she could catch all of them.

It must be said that Ya Molian was really good at exploring people's psychology, and she could firmly grasp her life gate without knowing it.

"Then let's go to the mountain together and then go our separate ways?" She put forward her own idea.

Anyway, no matter what, she would not foolishly tell Ya Molian about the Golden Pearl Space. Although this man was very good to her, she had to be on guard against others. She was not that stupid.

"Okay, I'll go to the bamboo house to wait for you these days." Seeing that she had given in, Ya Molian also spoke.

"Really?"

Lin Caisang's eyes lit up. She had never expected that Ya Molian would agree so easily.

She was still thinking about what kind of excuse she could find to avoid being stared at by Ya Molian's all-pervasive eyes. She didn't expect him to agree so quickly.

He was so easy to talk to, why didn't she believe it?

"You think it's not good?" Ya Molian asked with a smile.

"Uh."

Lin Caisang was choked by his words and shook her head quickly.

"No, no, it's very good. I think it's very good. Really, it's more real than pearls."

If she said it was not good, what if the neighbor in front of her immediately regretted it? Then she had to find a way out by herself.

But the key is that if she was looking for a way out in other people, it would be easy, but her way out had to be found in her grandmother. She was really helpless.

"Just do as you say."

...

According to what the two said, Ya Molian came to the Lin family with a medical book that night without waiting for the next morning.

In front of Lin Laogeng and Lu Qiubo, he sincerely asked Lin Caisang for some medicines in the medical book that could cure Zhong You's amnesia, and no matter how "patiently" Lin Caisang explained, he pretended not to understand.

Finally, with Lin Laogeng's approval, the family decided to let their granddaughter accompany Ya Molian, the big tail wolf, into the mountains to look for medicinal herbs.
