

Star of Space 309

Chapter 309 Do you like it?

And within this inner forest that everyone considers, there is a larger forest with even denser trees. The forest is full of footprints of wild beasts, and you can see the bones of wild beasts within a dozen steps.

That is the inner forest where beasts live directly, a more terrifying existence than this one.

"If you like wild pigeons, I will go to the inner forest someday and catch more," he said.

"No, no, no, why am I bothering you?" Lin Caisang quickly refused.

She has hands and feet. Once the Golden Pearl Space is upgraded, she can immediately go to the inner forest mentioned by Yamo Lian and catch some wild pigeons to raise in the space. Maybe there are others in the inner forest that she wants. As for the animals to be bred, how can you know if you don't go and take a look for yourself?

"Brother Melian, are there any other wild beasts in the inner forest? Are there any deer?"

"There are red deer and sika deer. Other small animals include civets, musk deer, and peacocks. White rabbits are the most common. Compared with those here, the fur color in the inner forest is brighter."

Ya Molian said while adding food for her.

Wait until autumn

He talked about many beasts that existed in the inner forest in one breath, and every time he mentioned one more, the little girl's eyes lit up even more, and he felt angry and funny.

"No matter how many beasts there are, you are not allowed to go."

Lin Caisang: "!!!"

If she didn't go, why would she be so excited here?

Smoothing her mouth, she turned her head away, not even wanting to look at him. She had a hunch that as long as Ya Molian said she was not allowed to go, no matter how hard she used her eighteen martial arts, he would be able to stop her. She couldn't go.

"There are blind bears and tigers, leopards and wolves in the forest. It's not safe." Seeing her angry look, Ya Molian had to explain aloud.

If it was just some other non-dangerous place, how could he not let her go? Just like the so-called inner forest in this area of villagers, he didn't hold her in his arms to prevent her from entering, right?

"Little Sangzi, did you hear that? You are not allowed to go alone!"

"I know, it's not like I don't have ears." Lin Caisang replied angrily.

Anyway, she will definitely think of a way to go to Neilin to have a look. If it doesn't work here, just go somewhere else. There is nothing she, Lin Caisang, wants that she can't get.

"I'm full, you eat slowly."

After taking a few hurried bites of rice, she put down the bowl and chopsticks without interest and prepared to get her spices again.

However, before turning around, she looked at Ya Molian again.

"Brother Melian, you said there are civet cats in the inner forest? Are there many? Are they difficult to catch?"

Civet cats are a good thing. Not only can their fur be made into plush and fine fur coats, but civet scent can make various floral fragrances rich, soft and long-lasting. It can also treat animal diseases, and civet meat, bones, etc. All can be used as medicine.

"You like it?"

Yamollian asked her.

"Of course, civet cats are full of treasures and can be used as medicine anywhere. How can I not like it?" Lin Caisang nodded matter-of-factly.

She is studying medicine. If she doesn't even like these things that can cure diseases and save people, then she has wasted all the medical skills she has learned for so many years. She might as well go home and farm.

"Next time you go into the forest, I'll catch it for you." Ya Molian said.

"OK."

Lin Caisang nodded quickly.

"Don't forget it."

Although he said that, Lin Caisang still thought about going to the inner forest to see if there might be a better beast than a civet cat.
