

Star of Space 311

Chapter 311 I thought I encountered a ghost

"ah!"

Suddenly a voice broke in, scaring the women who were talking ill about people behind their backs into screaming.

After taking a closer look, it turned out that Lin Caisang, who had just left, was back. With her keen ears, how could she not hear those gossips behind her back?

Having your face ruined is a big deal.

In this ancient world where appearance is the first impression, let alone a girl, even if a man's face is ruined, he is afraid that he will never get better in this life. In line with the benevolent heart of treating illnesses, saving people, and helping the world, she should ask a question. , if it can be cured, she must have taken action for the reason.

"Well.

Several women were secretly talking about Lin Caisang behind their backs just now, but when they saw that she was already standing beside them, their faces suddenly felt awkward.

"Sisters-in-law, who did you just say ruined his face?"

Seeing that none of them answered her questions, Lin Caisang asked again sincerely.

"Little girl, didn't you come from the Zeng family?" A woman finally came to her senses and asked Lin Caisang.

"Zeng's family? Is this the direction I came out from just now?" Lin Caisang asked.

It was a lesson from heaven and earth. She was really just sent out from a random place by the Golden Pearl Space. Who would have thought that she would meet a patient by such a coincidence.

"I am a doctor from Zou Fang. When I first arrived in Jian'an City, I lost my way. I saw that the alley was more remote, so I walked back. But someone in the Zeng family you just mentioned has ruined their face?"

She explained and brought the topic back to Zeng Yulang whose face was disfigured.

"you do not say."

The woman who had spoken the most just now, the neighbor of the Zeng family, heard her question and spoke sympathetically.

"As for the Zeng family, they are really in bad luck. They are a good family, but I don't see anyone they offended. They broke in in broad daylight and a gang of people broke into the Zeng family's face. Scratched.

Oops, I took a look. It was so miserable. The injury is healed now, but I am afraid that the scar will remain with me for a lifetime. It looks like a tabby cat face. Anyone who sees it will be scared. If they see it at night , maybe you thought you were seeing a ghost!

A few days ago, the promised marriage was canceled immediately. The Yan family didn't even have a nice word to say, so they just patted their butts and left.

Zeng Yulang was disfigured and had his engagement broken off. How could he have imagined that he would throw himself into the river without his family on his back? Fortunately, someone passed by and rescued him. Otherwise, the Zeng family would have been extinct. "

"So that's it."

Listening to the woman's words, Lin Caisang nodded.

Men in ancient times were a little too fragile. They would die if their appearance was disfigured, and they even threw themselves into a river. Isn't that something only girls would do?

"So Zeng Yulang is a scholar?" she asked.

If he is a child of the world, he would not throw himself into the river over such a trivial matter. He is probably a scholar who has read too many books, has a big head, and has a knot in his mind that he cannot think about.

"Yes, he is a good scholar and a scholar. He will be ruined if he ruins it." said the woman.

Suddenly, she looked at Lin Caisang intently, remembering that Lin Caisang had just said that she was a free doctor. It was very rare among girls. She could be allowed to practice medicine by her family, and she could not talk about details. It can be seen that It's a powerful one.

Maybe it can even help the Zeng family.

"Girl, I just heard you say that you are a doctor?"

"Um."

Lin Caisang nodded.
