

Star of Space 324

Chapter 324 Human life, human life!

"You go down.

Ya Molian directly signaled Ban Jue to leave first, and then walked to Lin Caisang's side.

"I....."

Lin Caisang looked at him walking towards her. In fact, she still felt guilty. She opened her mouth to explain a few words, but she really didn't know what to say at the moment.

Did she want to tell him that she had a golden bead with a space inside it, where she took on a mission and went to a far away place, only to come back with injuries all over her body?

"Don't say what you don't want to say. Have a good rest for a day. I'll go with you whatever you want to do tomorrow."

Even if she wanted to explain, Yamolian didn't give her a chance to speak, and told her her decision directly.

After this time, if he lets this girl do those things of 'curing diseases and saving people' by herself, then he will push her into fire pits one after another. Therefore, he has already decided just now, what she wants in the future Whatever you do, he must be by your side.

"What?"

Hearing his words, Lin Caisang opened his mouth wide and looked at him in disbelief.

"No...no, Brother Mo Lian, I was really just careless this time. I will be more careful in the future. There will be no next time. I promise..."

"Your guarantee has no effect on me."

Ya Molian interrupted her again and stared at her seriously.

"Remember the last time we were in Hongling Town? It was the same that time. Which of the people you rescued were not in danger themselves? Do you think I would trust you to do those dangerous things alone?"

he asked her back.

Lin Caisang opened his mouth, but found that he didn't know what to say.

She wanted to explain that she had done many missions, and this was really the first time she was injured, but what could she say? Who told her that every time she encountered danger, this first time she was injured, she was touched by Ya Molian? Right now.

She now felt that any explanation was powerless.

"Can we discuss it again?" She pursed her lips and asked in a low voice.

"What do you think?"

Ya Molian threw the question to her.

Seeing him asking himself this question, Lin Caisang pursed his lips and did not dare to say any more words to refute.

But if she had to take him into space and then go to Jian'an City so far away, she was afraid that he would treat her as a monster. What should she do?

"I wonder if we can discuss it. I will be really careful in the future and never let myself get hurt again, okay?"

"You can rest at home tomorrow." Ya Molian said directly.

Lin Caisang: "..."

This is enough to threaten her. If she rests at home, how can she go to the eldest princess's mansion to treat illnesses and save people? That's ten thousand taels of gold... Well, that's a human life, a human life!

"Okay then, you can come with me tomorrow."

What else could she do? Let's serve it cold.

...

"This... ahem, aren't they all for me to eat?"

Looking at the table full of dishes in front of her, Lin Caisang blinked her beautiful eyes. She really hoped that the next time she blinked, all the dishes on the table would disappear for her.

I cursed myself in my heart: Why are you so mean-mouthed and talking about so many blood-enhancing things? !

"Um."

Ya Molian nodded and put a piece of beef into the bowl in front of her.

"I stewed the bison from the inner forest for more than two hours. You can try it. There is also beef blood soup with beef offal added to it. Didn't you say you like to eat this? Beef liver fried with spinach."

Lin Caisang: "..."
