

Star of Space 337

Chapter 337 The awesome existence

"Girl, what other poison did my aunt suffer from?"

Taking a deep breath, he didn't want to say anything more, so he just asked Lin Caisang in a deep voice.

"According to what I know from the pulse pattern of the princess, the eldest princess should have been poisoned by the 'Jubi' poison first, and then she was poisoned by the 'Luowei' and 'Hui Gang' poisons one after another while she was in a daze all day long. , which resulted in rapid failure of the five internal organs and subsequent coma. "

The Great Prince: "!!!"

After listening to Lin Caisang's words, he really didn't know what to say. He opened his mouth several times but closed it again. After a while, he finally opened his mouth.

""Luo Wei' and 'Hui Gang'! My aunt was actually hit by 'Luo Wei' and 'Hui Gang'?"

"yes.

Lin Caisang nodded.

""Luowei' and 'Hui Gang' are both chronic poisons, but the properties of the two poisons are different. 'Luowei' is of cold nature, which can make people unconscious and cause death. It may not be possible to find out whether he has been poisoned by 'Luo Wei'.

And 'pain gangrene' is a powerful poison. After taking the poison, the poison will occur once a day. Within five days, it will be like being burned by fire, and life will be worse than death. "

"Then...then my aunt..."

"Miss Langzhong, I have always been with the eldest princess and have never seen her poisonous hair. Are you...could it be that you made a wrong diagnosis?" Aunt Bai interrupted the eldest prince desperately and asked Lin Cai mulberry.

"I believe in my medical skills and it is impossible to make a wrong diagnosis."

Lin Caisang glanced sideways at Aunt Bai, then looked at the eldest prince.

"The reason why the eldest princess didn't have poisonous hair is because she was hit by 'Jubi' first. The poison of 'Jubi' is born in water and can be transmitted to plants and trees. It also grows in a place with extremely heavy Yin energy and can suppress 'Ganosis'." 'Poison.

But the two coexisted, and the 'Hui Gang' won out. The eldest princess should have died of the poison, but at that time, she was hit by the 'Luo Wei' again.

The three poisons coexisted in one body, reducing the toxicity of each other, but they also slowly tortured the body, making it weaker and weaker until it fell into coma. "

In fact, she admired herself. She had only been in this world for a short time, and she already had such a deep understanding of the poisons in this world.

Sure enough, Yu Jing was unreliable, and said that the poisonous books in the Jinzhu Space were the most superficial knowledge. But just after reading those, she felt that he was already a very awesome existence in this place. .

Look, all the people in front of me were stunned.

"Does that girl have a way to detoxify the poison?" the eldest prince asked immediately.

He didn't understand the cold and severe stuff at all. He just wanted to know if his aunt could be saved.

"Yes, there must be, but..."

Lin Caisang thought for a while and nodded.

If there is no way to detoxify, her golden bead space will not allow her to take on this task.

"Just what?" the great prince asked.

"I'll first prescribe some medicine for the eldest princess to drink to replenish energy and nourish the body." Lin Caisang thought for a moment, then turned to look at the eldest prince.

"As for the detoxification, I still need to think carefully for some time. After all, it is a mixture of three poisons. The eldest princess is very weak now, so I have to be careful."

"Yes, yes." The great prince nodded repeatedly.

"I wonder if the eldest prince can make the decision. I want to take some of the eldest princess's blood back so that I can develop an antidote." Lin Caisang asked again.

"What? You want to take my aunt's blood?" The prince was startled and stared at Lin Caisang.
