

Star of Space 34

Chapter 34 Her Golden Pearl Order

Only by curing the patients shown on the jade mirror can she open up other places in the space bit by bit.

In other words, to sum up, how powerful this Jinzhu Space will be in the future depends on whether she can complete the tasks given to her by Jinzhu Yujing, and to what extent she can complete each task.

"Okay, you're awesome."

She raised her thumb towards the jade mirror and said to herself: Let the storm come more violently!

Compared with medical skills, who should be afraid of whom? She is not a newbie who is learning medical skills. I think back then, in her previous life, she could identify various medicinal materials at the age of five. She began to treat illnesses and save people at the age of seven. At the age of twelve, she had become the youngest member of the Lin family. The head of the family.

Is it possible to be stumped by the mere patients of this era?

"Brother Yujing, please give me more advice in the future."

Putting the jade books neatly, she stood up, bowed to the jade mirror, and said politely.

When she raised her head, she saw several large characters written in the jade mirror: Dear Master, you are so polite. It is Jade Mirror's honor to serve you.

Lin Caisang: "..."

Unable to help but chuckle, she turned around and decided to continue sitting down and looking at her Golden Pearl Order, but...

'Dong dong.'

There was a knock on the door outside Jinzhu, and Lin Caisang was startled. Then she remembered that she hadn't eaten yet. Grandma must have gone home and asked her to have dinner, so she walked out of Jinzhu.

However, what she didn't expect was that the person calling the door was not Grandma Lin Lu, but her eldest brother and third uncle.

...

"Third uncle, eldest brother, how are you doing with that matter?"

Welcoming them into the room, she glanced at the yard outside to make sure that grandma and third aunt hadn't come back yet, then she closed the door and asked them.

"The rumor has spread, and it will surely take effect soon." Lin Changhong nodded to his sister and said.

"So fast?"

Lin Caisang asked, looking back and forth between Lin Baiyi and Lin Changhong.

This is only the first day, so it shouldn't have such a good effect, right? In her expectation, the eldest brother and the others would need to go to the county for several days, so how could it only take one day.

"Um."

Lin Changhong nodded and glanced at Lin Baiyi.

"This is still the credit of Third Uncle."

"Third uncle?"

Lin Caisang looked at Lin Baiyi suspiciously. Her third uncle was a loyal and honest person. Could it be possible that he was also led astray and did something bad that she didn't even know about?

However, those who are close to ink will not become black so quickly, right?

"Sang Sang, don't underestimate your third uncle."

Lin Baiyi looked at his niece's small eyes, obviously not taking him seriously, and immediately became unhappy.

"Uncle San has been going to Qianlin County to do the work these days. Although he didn't get the work, he can still get some gossip. Although the Jiupin Farming History is nothing in the county government, but among us in the eyes of ordinary people, that is delicious food."

The third uncle and Chang Hong made casual inquiries and found out that there are several people who, like your second uncle, want to compete to be the ninth grade agricultural historian. "

Hum, since the second child is unkind, then don't blame him for being unjust!

His nephew Chang Hong had already roughly told him before that the second brother and his wife actually plotted against two elderly people. With such unfilial people, what else could he have to be polite to?

Without saying a word, he told all the things about Liu Baixiao to those who wanted to compete with him for this agricultural history.

Humph, doesn't Liu Baixiao want to be an official? It depends on whether his younger brother agrees or not!
