

Star of Space 340

Chapter 340 Trying to escape

"Thank you, Your Majesty.

Lin Caisang immediately stood up, lowered his head and looked at the toes of the great prince beside him, and asked softly.

"My lord, these people are..."

These people thought that the princess's mansion was a circus, and they all came out to see the monkeys. Besides, they wanted to see that she was not that monkey. They would go wherever they fell in love with her.

"Girl, they are all imperial doctors in the palace. Because they heard that you diagnosed the eldest princess's poison, they all came here with my father and wanted to consult you in person." The eldest prince explained.

He was embarrassed to say that these people were all very talkative, but when the critical moment came, they were of no use at all.

Now I heard that someone diagnosed the eldest princess's illness and prescribed a medicine. Everyone felt that they were great and could preach to Lin Caisang. Before, they had expressed disdain for Lin Caisang's prescription. Why is the prescription wrong?

"These people are all talkative and ineffective."

He even lowered his voice and only spoke to her in a voice that the two of them could hear clearly.

Who knows that this girl is really capable, and these people who are nominally imperial doctors are just doing nothing at the critical moment, so he naturally prefers Lin Caisang.

"oh."

After listening to his words, Lin Caisang had a look of realization on his face, and his beautiful eyes swept over the imperial doctors who were staring at him like tigers and wolves.

"Presumably all the imperial doctors came to the eldest princess's residence because they have done a lot of research on 'Hui Curse', 'Juebi' and 'Luowei', so they came here to teach the little girl, right? Don't tell me, I really don't have some skills. I understand, it's just a good time to ask a few people for advice."

emperor:"....."

The Great Prince: "..."

The second prince, who was preparing to watch Lin Caisang's show, said: "..."

All the imperial doctors who didn't take Lin Caisang seriously: "!!!"

How could they have that ability? The three poisons this little girl mentioned were all secret poisons in the world. They, the imperial doctors, only treated diseases, and they did not specialize in the study of sinister poisons.

"I don't know what your opinions are on these three poisons. Do you know how to detoxify them?" Seeing that they were silent, Lin Caisang continued to ask.

"The properties of these three poisons are all different. I was hesitant about the dosage of medicinal materials in this solution. Now that many imperial doctors are discussing it with me, it couldn't be better. The burden on my shoulders can be much lighter. "

emperor:"....."

Girl, are you telling the truth? If these imperial doctors are really of any use and have any unique insights, do I still need to recruit famous doctors from all over the world to treat my sister?

The Great Prince: "..."

Girl, your method of driving people away is really awesome. I should learn more. To deal with some people, it is the last word to prescribe the right medicine.

Second Prince: "..."

Why did he think this little girl was easy to bully yesterday?

Look at what these few words said, these imperial doctors who just now were trying to show her off majestically and regain their prestige in front of their father, all of them had dark faces, and they seemed to want to run away.

The doctors: "!!!"

If they were so powerful, they could cure the eldest princess's poison early in the morning, so how could she get her turn?

"Haha, little girl, you are joking. We are just a little confused about the medicines in your prescription and want to ask for advice in person. We are really beyond our ability to deal with the three poisons you just mentioned."
