

Star of Space 341

Chapter 341 There is something wrong with the prescription

Finally, an imperial doctor stood up, with an embarrassed smile on his face, and spoke to Lin Caisang.

"Oh, is it so?"

Lin Caisang raised her eyebrows and looked up at him.

"Old gentleman, I don't know what you don't understand about my prescription. Please tell me. In front of the emperor, if you think there is any improvement in my prescription, we will make it right away. Change, I won't say anything."

"Well!"

The imperial doctor choked so hard at her words that he almost choked himself to death.

In front of the emperor, he expressed his opinion and changed it. If the eldest princess drinks the medicine and does anything bad because of the change in the prescription, will it be his or hers?

Don't even think about it, it must be his.

He just wanted to create some problems for this little girl, but he didn't want to dig a hole to bury himself.

"No, no, I just...just..."

He doesn't even know what 'just' is good.

"Little girl, we just think that this prescription contains 'Thousand Muscle Roots', which is poison. Did the girl think carefully before using it on the eldest princess so casually?"

Another imperial physician stepped forward to help the embarrassed imperial physician.

"There are thousands of kinds of medicines. Which one is non-toxic? Can this old gentleman name one?" Lin Caisang asked him in return.

"This..." The imperial doctor paused and was stopped by her question.

"As a doctor, the old gentleman should also know that any medicine is poison. It depends on how the doctor uses the medicinal materials in his hands. Without talking about other things, let's talk about the 'Passion Orchid' that can be seen everywhere in Jian'an City. Can you Do you think it's not poisonous?"

Lin Caisang glanced at the imperial doctors lightly, and a mocking smile appeared on the corner of his mouth.

"In my eyes, there is no difference between medicine and poison. It depends on how I use them with my hands. Because I am a doctor, even if it is poison, I can turn it into medicine. If a few old gentlemen think which medicine or poison is If I can't use it, then I can't say anything."

"you--"

The imperial doctors were stunned by Lin Caisang's words, and their faces turned red with anger.

But in front of the emperor, even if they wanted to argue with Lin Caisang, it was impossible, because the poison they had not diagnosed was diagnosed by a little girl Lin Caisang. They knew that at this moment, neither the emperor nor the two princes My heart is biased towards Lin Caisang.

"Your Majesty, the medicine I prescribed for the eldest princess has not been taken yet?" Lin Caisang ignored the doctors and turned to look at the eldest prince.

"This is."

After hearing Lin Caisang's words, the prince's face looked a little ugly.

He naturally believed in Lin Caisang, because after all, she was the first person to diagnose that his aunt had been poisoned by three kinds of poisons. However, these imperial doctors all swore in front of his father that there was something wrong with Lin Caisang's prescription. , what can he do?

"Because the doctors said there was something wrong with the girl's prescription."

He put all the blame on the imperial doctors. It was their fault anyway and it had nothing to do with him.

"Um?"

Lin Caisang's eyes dimmed and he glanced at the imperial doctors.

"Several old gentlemen, when I asked you just now, didn't you say there was nothing wrong with my prescription? Why is there something wrong now? Is it because of the Qiansugen root in the prescription?

Since you know that the 'Qianjingen' is poisonous, you should also know that the poison of the Qianjingen has the effect of alleviating the strong properties of the 'Yuesui' medicine. Didn't you see that I added 'Yuesui' in the medicine? "
