

Star of Space 356

Chapter 356 A city thanks for saving its life

Because the legendary 'Ultimate Hell Ginseng' is a life-saving medicine that can bring back people who have gone to hell. Let me ask you, who can believe that people who have already died can be saved.

Of course, everyone thinks that this 'Ultimate Hell Ginseng' does not exist.

"'Ji Jing Shen' does exist, but it doesn't have as much medicinal value as everyone says." Lin Caisang said.

The so-called resurrection of dead people with flesh and white bones is definitely impossible, but the 'Jihe Ginseng' does have excellent medicinal value. Can the poison on the eldest princess's body be used to make the eldest princess no longer suffer from the pain in her five internal organs? Detoxification when damaged depends on whether these two medicines can be found.

Otherwise, I am afraid that even if the person is saved, he will not be able to survive for a few years.

"'Jihe Ginseng' itself has the effect of reshaping the body's flesh and blood, and its effects are all gathered in the 'Tian Yang Pearl' and 'Earth Yin Pearl', and the ones in the eldest princess's body not only eroded the internal organs, but also It penetrated deep into the bone marrow, and she herself was extremely weak due to these three poisons. Without the effect of these two medicines to reshape flesh and blood, her body would collapse even after the poison was resolved."

"I understand."

After listening to her words, the prince naturally understood the importance of these two medicines.

"But girl, where are you going to find this 'Ultimate Hell Ginseng'? I have never heard of this 'Ultimate Hell Ginseng' anywhere. Is it still too late to post it on the imperial list now?"

He only said this to himself.

'Ji Jing Ginseng' is already hard to find. Now I am posting on the imperial list asking for 'Tian Yang Pearl' and 'Earth Yin Pearl'. Where can I find them?

"There's no time."

Lin Caisang shook his head, lowered his head and thought for a while, then raised his head to look at the great prince.

"Let's do this. I'll figure out how to deal with these two herbs. Please be sure to find the other medicinal materials. Once I find these two herbs, I can immediately refine the antidote."

"Okay, okay, then I'll trouble the girl."

The great prince almost cried with joy when he heard her words.

"Girl, if you can find the 'Tian Yang Pearl' and the 'Di Yin Pearl', I will be extremely grateful. To be honest with you, my father has already said that as long as the girl can find these two medicines, the girl will Whatever you want from Liang, my father will agree to it."

In fact, when he met his father in the palace just now, his father said this: If the doctor's girl can find these two herbs, I will give her a city to thank her for saving my sister's life.

Although such a promise was heavy, it also showed the father's good intentions towards his aunt.

Lin Caisang: "..."

Why, after hearing what the great prince said, it seemed as if they had prepared a big pit and were just waiting for them to jump down.

Looking up at the blue sky, she thought about it, and then thought about it carefully. It seemed that maybe since she came to this world, everyone had dug a big hole for her to jump into.

"I uncovered the royal list and came to save the eldest princess. These are what I should do." She replied calmly.

After bidding farewell to the eldest prince and leaving the eldest princess's mansion, Lin Caisang's hands were empty and her heart was empty.

Although she agreed to look for the 'Ultimate Hell Ginseng', she still didn't know where to look. She didn't know where the president of the 'Ultimate Hell Ginseng' was. She only knew that this thing liked the cold.

Are you going to try your luck on Yexue Mountain?

"You're back, how's it going?"

When Ya Molian saw her coming out, she immediately came up to her with something and asked her.
