

Star of Space 357

Chapter 357 Don't be a doctor

She raised her eyes, glanced at Ya Molian, sighed softly, shook her head and replied: "Not at all.

"What?" Ya Molian raised her eyebrows and asked.

"Let's go back first."

Lin Caisang naturally wanted to tell him about the 'Ultimate Hell Ginseng', but not in this place, so he should go back to the bamboo house first.

...

"Ultimate Hell Ginseng? Are you looking for Ultra Hell Ginseng?"

In the bamboo house, after putting down all the things, Ya Molian looked at Lin Caisang in surprise.

This girl actually wants to find the 'Ultimate Hell Ginseng'. Does she know what kind of thing is guarding the 'Ultimate Hell Ginseng'? It is extremely difficult for ordinary people to even get close to it, let alone harvest it.

Therefore, the 'Jijioginseng' is just a legend in everyone's mouth. Because it is not available, lunchboxes no longer exist.

"Um."

Lin Caisang nodded.

"The two medicinal materials, 'Tian Yang Pearl' and 'Di Yin Pearl' in the 'Ji Jing Ginseng', are not only very important to the body of the eldest princess, but they can also be used to strengthen the body of any

detoxification elixir. For the vitality and medicinal properties of the elixir, it would be great if you could collect the 'Jihejiucins' and grow it yourself."

She is a doctor, so she naturally wants to get good medicinal materials, and the 'Jijioginseng' is the best among the good medicinal materials.

"Brother Mo Lian, do you know where to find 'Ultimate Hell Ginseng'?"

Looking at his strange expression, she knew that she had guessed correctly. Ya Mo Lian really knew where the 'Ultimate Hell Ginseng' was.

"You tell me where to pick it. I must pick it within four days."

"this....."

Yamolian, who had always answered Lin Caisang's questions, really hesitated this time and asked her instead.

"Little Sangzi, do you have to save the eldest princess?"

He had never thought that the poison on the eldest princess's body would be so difficult to cure, and that he would actually need to use the 'Ultimate Hell Ginseng'. If he had known about it, he would never have let Lin Caisang save the eldest princess.

"I can give you whatever you want. For us, those rewards are actually..."

"Don't try to persuade me. This is not about the little reward." Lin Caisang raised his hand to interrupt him.

"Brother Mo Lian, I am a doctor. It is my duty to treat illnesses and save people. If I see someone being poisoned and refuse to save him, then I am not worthy of being a doctor. Brother Mo Lian, can you understand what I mean? "

"Then don't be a doctor." Ya Molian said directly.

Lin Caisang: "..."

What else can she say? It seems... she can't, right?

Is it really that dangerous to pick the 'Jijioginseng'? She could actually make Ya Molian tell her not to be a doctor. He had always been very supportive of her.

"Brother Mo Lian, where does the 'Ultimate Hell Ginseng' grow?" She asked him calmly and carefully.

"You must know?" Ya Molian asked her again.

Hearing this, Lin Caisang nodded vigorously.

Seeing her nodding, Ya Molian closed her eyes and took a deep breath. When she opened her eyes again, calmness had returned to her eyes.

"Do you know that there is a river between Liang and Wei that no one dares to approach, called Youxiang River?" He asked her.

"Youxiang River, everyone should know about this river, right?" Lin Caisang raised his eyebrows and replied.

"I heard that Youxiang River directly cut off Liang Guo and Wei Guo, causing a lot of trouble for the trade between the two countries. The surface of this river is covered with thick ice all the year round, and no matter how hard you try, it can't be plowed. It won't open, and there is a strange fish in the river that eats people without spitting out their bones..."
