

## Star of Space 359

Chapter 359 Riding a Tiger and Being Difficult to Dismount

"That's fine, you let him come over.

She nodded, but after thinking for a moment, she added.

"Brother Mo Lian, please ask him to come over as soon as possible. I think I will be busy these days."

No matter how rare this 'Ultimate Hell Ginseng' is, she must get it. All the poison in the eldest princess's body is pinned on the 'Ultimate Hell Ginseng'.

Furthermore, in the future, the poison on Ya Mo Lian will also require the use of 'Jihe Ginseng'. This is what she calls being prepared.

"Are you still going to collect the 'Ultimate Hell Ginseng'?" Ya Molian frowned.

"It's natural."

Lin Caisang nodded extremely seriously.

"The efficacy of this 'Jihejiginsheng' is not comparable to that of other medicinal materials. I would like to use other medicinal materials instead, but it is obviously not possible, so I have to rely on it.

If you really can't collect 'Diyin Pearl', then you can collect some seeds of 'Jihegucun' and 'Tianyang Pearl', as long as you have one of the medicinal materials of 'Tianyang Pearl' and 'Diyin Pearl', I am confident that I can cure the poison on the eldest princess. "

After listening to her words, Ya Molian was silent for a while. After a while, he asked her.

"Do you have time to go to Youxiang River?"

"this....."

Thinking of the time issue, Lin Caisang also paused and hesitated obviously.

She only has four days now, and Youxiang River is really far away from Jian'an City. It's not enough for her to run back and forth without sleep, so how can she have time to collect the 'Ultimate Hell Ginseng'?

Therefore, if she wants to have enough time, she can only set off from here. Ye County is very close to Weiguo. It only takes two days to get to Youxiang River from here. She still has two days to go. Looking for 'Hell Ginseng'.

But here...

She hasn't been seen for several days. What should Ah Nai and the others do if they can't find her?

All of these are problems, not to mention that the body of the eldest princess is not suitable for her to leave for four days. It is necessary to fuse the three poisons on the eldest princess into one.

"If I had known, I wouldn't have given the eldest princess the medicine to recuperate her body so early. Now I'm in a difficult situation."

She sighed softly and said.

But if you had known it before, it would be useless to regret it now. No matter how much you knew earlier, if the eldest princess's body continued to be delayed like this, it would be impossible to save her.

"Why do you have to save the eldest princess?" Ya Molian asked.

"You do not understand."

Lin Caisang was anxious in his heart, and he didn't bother to hide anything when he spoke.

"I accepted the mission. It's not just a question of how many points I have. If the eldest princess dies and I can't complete the mission, I'll have to wait to be... uh."

She stopped talking and woke up in time not to say anything out loud.

But she was right. If the mission failed, she would have no choice but to wait to be thrown into that unknown place in the Golden Pearl Space to receive punishment.

Although she still doesn't know what the so-called punishment is, the punishment for ordinary tasks is said to be so serious by Yu Jing. This is a special task. She will have to shed several layers of skin even if she doesn't die, right?

"By what?"

Ya Molian's eyes dimmed and she asked.

He knew what mission Xiao Sangzi was taking, but he had never heard of such a mission in the world. He could go back and forth between Ye County and Jian'an City in an instant.

But no matter what, Xiao Sangzi has accepted this task, so he can only accompany her.

But he really didn't think about the consequences if he failed to take on such a task. Is it punishment?
