Chapter 368 Scared me to death

"You must be the doctor next to Mo Lian. Go and grab the medicine from this prescription. Grab it according to the prescription. Don't miss a word. Then fry it and bring it to you." She said.

"yes."

Jiang Zuo looked at his palace master's face that had faded. He could only swallow his full stomach and nodded to Lin Caisang.

...

For more than an hour, Lin Caisang sat beside Ya Molian's bed, waiting for him to wake up.

She had taken back the silver needle, and Ya Molian's face had returned to normal, but her heart was still hung up. She closed her eyes and raised her hand to rub her eyebrows. All she thought about was the poison on Ya Molian's body. .

Suddenly, a warm hand touched her face.

She was immediately startled and quickly opened her eyes. The next second, she met Ya Molian's bloodshot eyes.

"Are you awake? Do you feel uncomfortable anywhere?" She immediately held his palm and asked nervously.

Ya Molian shook her head, took her hand into his own and placed it on her chest.

"I made you worry, I'm fine."

"It's nothing, it almost scared me to death."

Lin Caisang was finally able to let go of the heavy pressure in her heart.

"I'll help you up and move your body a little, otherwise it will be even more uncomfortable."

She reached the head of the bed, carefully helped him stand up, and gently squeezed his arm to make him more comfortable, although she knew that these were just a drop in the bucket for Ya Molian at this moment.

"Where's the 'Ji Hell Ginseng', have you seen it?" Ya Molian sat up and asked her.

"I saw it."

At this time, who cares about the 'Ultimate Hell Ginseng'? His body is the most important, and everything else has to be put aside.

"Jiang Zuo is boiling medicine. He will have a bowl of porridge first and then drink the medicine."

"Um."

Yamollian responded.

...

More than half an hour later, Lin Caisang was still sitting next to Ya Molian, and the four of them also came in. Seeing their palace master's face return to normal, the four of them finally recovered.

"Palace Master, you are going to scare your subordinates to death." Jiang Zuo looked at Ya Molian with a wry smile and said, covering his chest.

"What do you mean, it's not because you are not good at studying. The palace master collected so many medical books for you in vain, but you didn't learn anything. Otherwise, why would the palace master need to suffer such a sin?"

After hearing what he said, Ban Wu looked at him reproachfully and said a few words.

"you--"

Jiang Zuo's face suddenly turned red when he said it, he was ashamed and angry.

"Stop making sarcastic remarks there. If you have the ability, come and do it. I'm not..."

"okay."

Listening to their noise, Ya Molian was so angry that she wanted to lie down again.

"Are you all just seeing that I'm recovering from my illness and are you feeling too comfortable? Just go out and work for me if you have nothing to do. Don't make any noise here."

After being trained by Ya Molian, Fei Wu and Jiang Zuo immediately became more honest. They lowered their heads and said nothing, but did not go out.

"Brother Mo Lian, has your situation only happened in the past two years?"

Lin Caisang glanced at Ban Wu and the four of them, then turned back to Ya Molian and asked him.

"Pain during attacks?"

Ya Molian was stunned for a moment before she realized that she was asking about the pain he had occasionally experienced. Such pain was so unbearable that no matter how strong his self-control was, he could not resist it.

"Yeah." Lin Caisang nodded.

"The first attack was two years ago." Ya Molian recalled and said.

"Before I went to Youxiang River, I should have told you about banishing Wu? After that, I had two or three attacks one after another. With this time, there were five poisonous attacks in total that were extremely painful."
