Chapter 369: Being poisoned again?

"Before that...were there no such symptoms every time the poison occurred two years ago?" Lin Caisang asked again.

"No."

At this point, Ya Molian shook her head without any hesitation.

"What, what's the problem?"

After hearing his question, Lin Caisang was silent for a moment, then looked at him again and asked.

"Then where did you go before you became addicted to drugs two years ago?"

What's the problem? It's a big problem!

If the poison on Ya Molian was given before he was abandoned in the forest when he was five years old, then who gave him the poison two years ago?

"Um?"

Hearing this, Ya Molian's eyes dimmed suddenly and he looked at her seriously.

"Miss Lin, do you mean that the reason why the poison in the palace master's body became so severe two years ago was because he was poisoned again?" Jiang Zuwei opened his mouth and asked Lin Caisang.

However, he asked himself that he had done some research on poisons and had not diagnosed any other poisons in the body of the palace master. Could it be that Lin Caisang had made a wrong diagnosis?

Lin Caisang didn't answer his words, but he didn't deny them either.

"Going back home."

Looking at her, Ya Molian already knew why the poison in his body suddenly became so serious. It turned out that it was because he was recalled by his family.

Therefore, it was not about pity that he was living too hard outside and wanted to give him the status he deserved.

But to poison him again so that he can be better controlled in the future and prevent him from falling out of their control because of his greater strength, right?

"That's right, you were poisoned again at that time." Lin Caisang said with unusual certainty.

"This is impossible."

Before Ya Molian could speak, Ban Wu screamed in surprise.

"The master of the palace never touches food and drink from outside. He brings it all with him. He won't drink even a sip of water!"

He has already fallen into the same pit once, how could his palace master still fall down in that pit again? The head of his family never touched the food and drinks in that family.

unless.....

Thinking of that possibility, his face darkened suddenly, and he looked at Ya Molian in disbelief.

"Palace Master, it's..."

"Exiled to martial arts!"

Ya Molian sternly interrupted Ban Wu's words, her face as calm as ever.

But sitting side by side with Lin Caisang, how could she not feel the coldness on his body? Her hand placed under the table secretly held his and squeezed comfortingly.

"fine."

Ya Molian turned his head, smiled at her and shook his head.

What's there to be sad about? He already knew what kind of home it was, and it wasn't the first time he was poisoned.

"What poison am I poisoned?" he asked.

"Actually, what you were poisoned was not poison."

Lin Caisang's expression turned serious when he mentioned that Ya Molian was poisoned again.

"Not poison?"

Ya Molian frowned, and even Ban Jue and Ban Wu looked at Lin Caisang nervously.

It's not poison that can make their palace master become like this? This look would scare the guts out of them.

"Ah, I see."

Suddenly, Jiang Zuo seemed to have thought of something, his eyes widened and he roared.

"Miss Lin, is the poison that the palace master was poisoned by 'shadow'?"

"film?"

The three of them looked at Jiang Zuo at the same time.

"What is a 'shadow'?"

"'Shadow' can be called 'Shadow' or 'Yin'. The 'Yin' in Yaoyin is not a poison, but more like a medicine. Once it enters the body, it can stimulate all the toxins in the body and amplify them. A hundred times better medicine."

Lin Caisang looked at Yamolian and said word by word.
