

Star of Space 372

Chapter 372 The mission is not easy

"Your Majesty, although the 'Tian Yang Pearl' and 'Di Yin Pearl' were used this time, not everyone can take the refined antidote, so giving them to you is of no use.

Lin Caisang took out a red porcelain bottle from his arms and handed it to the emperor.

"This is my unique secret medicine 'Fearless'. It has miraculous effects on treating diseases and poisons. Please keep it as it is worth the value of the medicinal materials in the prescription."

She accepted those medicinal materials. Of course, she was not someone who would take advantage of others. In return, she took out five pills of the extra 'Wuwei' that she had refined in Hongling Town and put them in a porcelain bottle. The emperor.

"Let's talk about this later."

The emperor ignored the porcelain bottle in Lin Caisang's hand and simply waved to the eunuch behind him. The eunuch understood, stepped forward and respectfully took the porcelain bottle in Lin Caisang's hand into his own.

"Girl, how is my sister's physical condition? Although the poison can be cured, didn't you say before that her body is very weak?"

"Your Majesty, you can rest assured. When the poison in the eldest princess's body is detoxified, I will diagnose her pulse and prescribe her some medicine to replenish her body. As long as you take the medicine I prescribe on time, the eldest princess's health will be fine. "

Lin Caisang can still guarantee this.

"but....."

"But what?" the emperor asked immediately.

How can there be a but? Is there anything else going on?

"Your Majesty, the eldest princess's poison is unknown. You should also know in your heart that these poisons will not be put on the eldest princess for no reason." Lin Caisang reminded.

"This time I was able to detoxify, but the 'Tian Yang Pearl' and 'Di Yin Pearl' are so rare. My friend also risked his life to find them. He is still lying in bed and has not woken up. It can be said that the eldest princess has It's a blessing that the poison can be cured.

Your Majesty, poisoning happens again and again. If you don't take precautions, the eldest princess will never have peace. "

After listening to Lin Caisang's words, there was no need to look at the emperor's face. It could not be darker. Seeing that his father's face was not good, the prince quickly stood up and explained to Lin Caisang.

"Girl, it was because my aunt's poison had not been detoxified before. My father didn't want to publicize that you were detoxifying my aunt, so I didn't investigate in detail. But now that my aunt is fine, I will investigate the poisoning in detail. Absolutely I won't let anyone with evil intentions go."

There was no need for Lin Caisang to remind him of these matters. He had already given instructions to his subordinates early in the morning.

As soon as the aunt's poison is cured, she will arrest all those who deserve to be arrested and let them know what the crime of murdering the eldest princess is!

But even now, he still doesn't understand why someone would take action against the eldest princess. Is there any secret hidden in his aunt's body? Or did he murder his aunt? What harm would it do to Liang Guo?

On this point, he was afraid that he would have to investigate it carefully.

After hearing what the eldest prince said, Lin Caisang didn't say anything else. She just reminded him.

It is not easy to accept this special task. If the person is poisoned again before being cured, then she will really have endless special tasks.

"Yeah." She nodded.

After a while, Lin Caisang went into the room again to check the eldest princess's pulse. When he came out, he told the emperor and others that the poison in the eldest princess's body had been cured.

"Okay, okay, great."

When the emperor heard her words, he was instantly excited.
