

Star of Space 373

Chapter 373 It's already interesting enough

"Then... girl, does my aunt need to take some more warming medicine?" the great prince asked.

He knew this was for sure, and just wanted to remind Lin Caisang.

"Of course I want it." Lin Caisang nodded.

The eldest princess's body is like this. If she doesn't take care of herself, she is really afraid that she will be blown away by the strong wind even if she walks.

"I will write a prescription for the eldest princess later. After taking the medicine for half a month, I will come back for a follow-up consultation."

"good."

The eldest prince responded and gave instructions to the butler who had been waiting behind him.

"Come here, take the doctor's girl to get a prescription.

"Yes, sir, please come this way." The housekeeper responded, preparing to take Lin Caisang to the pharmacy.

However, just as Lin Caisang raised his feet, he was stopped by a voice.

"Young lady of the doctor, the 'Tian Yang Pearl' and 'Di Yin Pearl' are extremely rare medicinal materials. You are treating the eldest princess's illness and detoxifying, so these medicinal materials should be returned, right? You can keep them in the eldest princess's mansion. Just in case of emergencies."

When an imperial doctor saw Lin Caisang leaving, he expressed his anxious thoughts about asking Lin Caisang for the 'Tian Yang Pearl' and 'Earth Yin Pearl'.

Hearing this, Lin Caisang paused and looked sideways at him.

"Old sir, are you cursing that the eldest princess will be poisoned again?" she asked sharply.

Was the 'Fearless' she gave to the emperor before co-writing all for free?

Even if it was given for free, her brother Mo Lian risked his life to retrieve these 'Tian Yang Pearl' and 'Earth Yin Pearl' from Youxiang River. What does it have to do with others?

"This...I didn't say that, it's just this 'Sky Sun Pearl'..."

"These 'Tian Yang Pearl' and 'Earth Yin Pearl' were obtained by my friends. Does it have anything to do with you?" Lin Caisang gave him a cold look and interrupted him.

"It's interesting enough that I can generously use these two herbs to treat the eldest princess's poison. What's the matter? Do you think you want to burn down the bridge and take the two herbs from me?"

"I....."

"Does the Emperor know that you have such thoughts?"

Without saying goodbye to her, Lin Caisang turned to look at the emperor with a dark face.

"Steward, please ask the young lady to write a prescription for the eldest princess." Upon seeing this, the eldest prince immediately ordered the steward.

"Yes, Miss Langzhong, please." The housekeeper responded with a cold sweat on his head.

When he asked Lin Caisang to leave, he glanced at the imperial doctor who had shamelessly set his sights on Lin Caisang.

Is this person tired of living? Didn't you see that the father-in-law beside the emperor accepted the secret medicine given by Lin Caisang, and actually wanted to make use of the 'Tian Yang Pearl' and 'Di Yin Pearl'!

"Old gentleman, although the two medicinal materials 'Tian Yang Pearl' and 'Di Yin Pearl' are rare, they are not impossible to obtain."

Lin Caisang did not leave first, but nodded to the housekeeper, then looked at the imperial doctor again, his voice as cold as ice.

"'Ji Jing Ginseng' is at the border of our Liang Kingdom and Wei Kingdom, on the ice of Youxiang River. If you really want to contribute to the Liang Kingdom's royal family, you can go to Youxiang River and put it there. 'Jijioginseng' was collected."

"Well."

The imperial doctor was shocked by her words.

But it wasn't over yet. Just when he was blushing and not knowing how to reply, he heard Lin Caisang speak again.

"Or if you think it's too dangerous to go to Youxiang River, you can go to another place to collect the 'Jijioginseng'."
