

Star of Space 380

Chapter 380 Did you do it all?

"Egg yolk crisps, shredded sweet potatoes, red bean chiffon cake, hand-shredded bread have been sliced, cherry rose jam, dried loquats, dried cherries are all here, white fungus, red dates and loquat soup, crispy egg rolls, candied haws, peanut nougat... "

Although there were no hawthorns at this time, she picked wild strawberries, which were just enough to make candied haws.

"Xiao Sangzi, you...did you do all this?"

Ya Mo Lian, who originally wanted to help, was stunned when she saw the exquisitely arranged and beautiful food on the table.

"You're here."

When Lin Caisang heard his voice, she realized that he was already standing behind her and turned to look at him.

"You're here just in time, take all these things."

"Um.

Yamolian nodded.

"What were you thinking when you were standing there?"

Now that everything has been done, why are you still standing there?

"Well....."

Lin Caisang was asked by his words.

"Maybe I'm a little busy. I always feel like I'm missing something, but I can't remember what it is."

Could she say that she actually felt that there was something important that she had forgotten somewhere? But she stood here for a while and didn't even remember what it was.

Sure enough, people who often don't cook always forget things as soon as they enter the kitchen.

"What special things did I ask them to buy yesterday?" she asked Ya Molian.

"milk?"

Ya Molian said.

There was no milk on the table, but she shook her head.

"Saltpeter..."

It's not milk. The saltpeter is special enough. After all, no one would eat it...

"Ah, I remembered."

Lin Caisang's eyes lit up when he heard him mention saltpeter.

He hurried to a corner of the kitchen, where there was a large wooden barrel.

She opened the lid of the barrel and was immediately hit by a burst of cold air. She reached into the barrel and took out the five tall bamboo tubes inside. She walked to Ya Molian and put all the bamboo tubes on the table.

He ran to the other side and got seven cones and a wooden spoon.

Open the bamboo tube, scoop out a scoop of ice cream of different colors inside, put it into each cone, then decorate the top with red and black plums, cherries and mint leaves, and put it on a tray.

Then he put several more bamboo tubes into the wooden barrel.

"Okay, that's it."

She clapped her hands, feeling... something was wrong.

"Is there anything else I forgot?" she muttered.

"I remember, Jiang Zuo and Jiang Li went to catch pheasants last night, and..." The one who caught fish.

He reminded again.

"Oh, that's right, I almost forgot."

Lin Caisang then remembered that the most important meal had not been brought out yet.

He stepped forward on two legs, came to the kitchen door and shouted to the other side, "Some people can help!"

In the main room, they heard the sound, and the five of them came out in a group, ready to show off their skills, at least not to let their palace master go hungry.

However, as soon as he arrived in the kitchen, he saw Lin Caisangduo pushing large clods of earth out of the stove mouth one by one.

Everyone's faces darkened involuntarily.

"Miss Lin, you won't let us..." Eat dirt, right?

"Bring those two big plates over there, and those dried lotus leaves, Zhong You, and bring me the hammer over there." Lin Caisang pointed to them at the plates that had been prepared. .

"oh oh."

Zhong You nodded and brought the small hammer in the corner to his master.
