

Star of Space 383

Chapter 383 No secrets can be hidden

"Yes what's the matter?"

Lin Caisang nodded. Not only did she have a thousand taels of gold that would only be available in a few days, but she also took on many tasks in the past few days, all of which were worth money, okay?

"Are you planning to keep that money out of sight?" Ya Molian asked her again.

Lin Caisang: "!!!"

Can't see the light! What does it mean to not see the light?

"Ya Molian, please tell me clearly, why can't my money see the light of day?!" She asked him sternly.

How could the money she had earned openly come into his mouth? She couldn't see it in the light. Why don't you talk like that? 69shux.Com

"Did I say something wrong?"

Ya Molian picked up a piece of dried loquat from the porcelain plate, put it to her mouth, and continued.

"You are making money in this way now, can you show it to your grandpa and grandma? Going to the mountains to collect medicine is a good job, but the medicinal materials you expose are limited after all. If you can earn more money, can your grandma see it? Wouldn't they be able to guess it?"

"this....."

Lin Caisang opened his mouth, really not knowing how to refute Ya Molian's words.

"You gave Changfeng ten taels of silver today?" Ya Molian asked.

"yes."

Lin Caisang nodded. In fact, she wanted to give him a little more.

"But don't you think that if you can just take out ten taels of silver like this, it will arouse Lin Changfeng's suspicion sooner or later? If everyone can make money like you by going to the mountains to collect medicine, why should everyone use their own money? If you risk your life, what are you going to do to collect bird's nests?"

Yamolian asked her.

Hearing this, Lin Caisang fell silent.

Indeed, she was worried that if she gave too much money, Changfeng's cousin would be suspicious. In fact, when she took out ten taels of silver, Lin Changfeng looked at her strangely. At that time, Lin Changfeng You must be suspicious of her, right?

"Then...Brother Mo Lian, what do you think I should do?"

She only has a golden bead space, but she feels that it is of no use. The most she can do is to collect some medicinal materials from it to deceive the eyes of her family, but there is really nothing else she can do.

I have always thought about upgrading the Jinzhu space so that I can breed animals. But after the animals are actually bred, it is naturally impossible to take them out.

"Since you don't want others to know about your medical skills, you should keep it a secret, but... I think the dried fruits you made taste very good. If you can sell them, many people will like them."

Ya Molian picked up a bamboo can and put it in her palm, and said to Lin Caisang.

"You mean...let me open a retail store?" Lin Caisang asked him with a raised eyebrow.

"Um."

Ya Molian nodded.

"The people in Yacun rely on the mountains to eat. The mountains have the most abundant wild fruits all year round. The dried fruits made using your method taste delicious. Even men like us who don't like sweets like it. Look at this. You will know after banishing a few of them, and women will definitely like them even more.

And that drying room you built on Menghuang Mountain...if I guessed correctly, it was built specifically for drying such dried fruits, right? "

"Well."

Lin Caisang choked after hearing his words.

Sure enough, in front of this man, she really couldn't hide any secrets.

Although she doesn't know how to make savory dishes, she is extremely fond of sweets. In her previous life, as long as there were any new fruits, she would definitely use them to bake some dried fruits, and then make some jams, fruit wine, etc.

This is also one of her hobbies besides painting.
