

Star of Space 387

Chapter 387 Money is the most real thing

"Sang Sang, what does your ability to make dried fruits have to do with dividing the family?" Lu Qiubo didn't understand.

Isn't it a good thing to know how to do things? How can it be related to the separation of families?

"Grandma, I built such a big drying house on Menghuang Mountain. From now on, if I have to pick wild fruits from the mountain to make dried fruits, I have to sell them. Otherwise, what would I do?"

Lin Caisang pointed to the bamboo jar in his hand and said.

"you mean....."

Lu Qiubo looked at his granddaughter intently.

"I want to open a shop."

Lin Caisang said directly to Lu Qiubo.

"The dried fruits I make taste very good, and I think I can sell them. If I can open a snack shop, the business will definitely be good, and then my family will not be short of money.

But you also know that Brother Changfeng is a scholar. If he wants to continue to take the examination, become a civil servant, and then take the scientific examination, how can he have a businessman in his family? This will have a great impact on his future.

I really couldn't think of a way, and then I thought, how about we separate our families? Let's separate without dividing the pot. We will be listed as two families in the family tree, but we will still eat and live together at home. In this case, I will open a shop to cook Business has nothing to do with Brother Changfeng. "

"hiss."

Lu Qiubo turned his head and thought for a moment, then squatted down and began to slowly pick up the vegetables on the ground.

"Grandma, I know you don't want to separate the family, but you have to think about Brother Changfeng."

Lin Caisang also squatted down, picked up vegetables on the ground with Lu Qiubo, and continued to educate her.

"It's not a bad idea for Brother Changfeng to go to Ye County this year. He just went to take the Juren Examination and it didn't cost much money. But even so, the family can't afford that much money. If Brother Changfeng passes the exam, he will go to Jian'an City next year. Woolen cloth?

Money was spent in that place like water. To eat or sleep, you had to spend money to do everything, not to mention making a few friends and currying favor with the high-ranking officials. "

"You still want to curry favor with the high official?"

Lu Qiubo was stunned. She didn't know these things. If it was like what Sangsang said, there would be so many places to spend money. What could she do with the little money she had in hand? Yes?

"Isn't it okay if you don't fawn over? We, Changfeng, can't do such unconscionable things."

Lin Caisang: "..."

Grandma actually said that what she said was unconscionable...

"Grandma, this is not something unconscionable, nor is it about how much money should be given to high officials. Think about it, everyone else has gone to give gifts to those high officials, but Brother

Changfeng didn't go to give them to those high officials. What do you think? Why don't you try your best to trip up Brother Changfeng?

In fact, I have only heard about these things, and it is not necessarily true whether they are serious or not, but money is the most real thing. It is always right for us to earn more money and give it to Changfeng, right? "

Although she said this, Lu Qiubo had already determined in his heart that if Lin Changfeng really went to Jian'an City, he would have to spend a lot of money.

"Then, are we really going to separate the family?" She looked at her granddaughter uncertainly and asked again.

"Um."

Lin Caisang nodded.

"Grandma, dividing the family doesn't break off the family ties, it's just a way. After the family is divided, I can open a shop to make money, and Brother Changfeng can take the exam with peace of mind. How good it is. Moreover, our family does not They all live together."

"snort."

Lu Qiubo snorted and looked at his granddaughter angrily.

"Who are you kidding? With all the belongings you have prepared on Manghuang Mountain, I think you have wanted to separate the family for a long time, right?"
