

Star of Space 40

Chapter 40 Mulberry picking girl, come out quickly

"Of course it's true. When did Sister Sang Sang lie to you? When we exchange the money, Sister Sang Sang will buy you candied haws, okay?" Lin Caisang said to him, and looked at Lin Caiqing again.

"And buy Cai Qing a beautiful beaded flower to wear."

"Thank you, Sister Sangsang."

Lin Caiqing's eyes glowed green when he heard Zhuhua.

Pearl flower, she had seen Liu Yushui wearing it before, but she was not even allowed to touch it. She just glanced at it and was scolded by Liu Yushui. If she also had one, she would definitely think of it as a pearl flower. Baby in the box!

"Sister Sang Sang, let's go dig for medicinal materials and pick up golden wild eggs." She said excitedly.

"good.

Lin Caisang looked at the two siblings, feeling happy and fully responding.

...

For a few days, Lin Caisang and Lin Caiqing, brother and sister, have been digging for medicinal materials, digging here and digging there.

Originally, Mrs. Lin Lu wanted to take everyone with her, but after hearing Lin Caisang say that there were not many medicinal materials, she had no choice but to give up and let her three grandchildren do the work, and they continued to cut pigweed.

Lin Changhong also went out early and came back late every day. He hunted game in the morning and sold it in the afternoon. He also sold all the wild eggs that Lin Caisang and the others found.

After a few days, I saved more than a tael of silver without realizing it.

"Sang Sang, this money comes so quickly, most of it comes from the wild eggs you found and sold.

In Lin Caisang's room, Lin Changhong looked at the broken silver and some copper plates on the table, his eyes narrowed together.

Generally, restaurants in the farm egg town charge one penny each, but these wild eggs cost two and three pennies. The shopkeeper in the restaurant has eyes that look like something, and you can tell with just a glance that they are domesticated. Wild eggs.

"Tomorrow is the market. Third uncle has made some things and will sell them at the market tomorrow. Brother, I will go with you. First, go to the blacksmith shop to see how much it costs to make those things."

Lin Caisang thought for a while and said.

In Lin Changhong's view, earning more than one or two silver dollars in a few days is already very impressive, and he will continue to earn like this in the future.

But only she knew that it was not possible to pick up wild eggs every day. She had picked up all the wild eggs nearby. If she wanted to pick up more, she had to go into the inner forest and walk around.

But now she has two little guys with her, so how can she get into the inner forest?

"good."

Lin Changhong responded.

"Where are those medicinal materials? Do you want to sell them?"

he asks.

"Medicine..."

When it comes to medicinal materials, Lin Caisang hesitates between his brows.

"Let's try some of it first. After all, it's not completely dry yet. If you take it to a drug store, I'm afraid they won't accept it."

But it was still okay to test the waters and see where the medicinal materials were more expensive and which ones were more common. She would have a good idea. Although she had a rough idea, she still had to look at the actual situation.

"If medicinal materials can really make money, then we will..."

"Changhong, Changfeng, mulberry picking girl, come out quickly."

Before Lin Caisang finished speaking, he heard someone calling their names in the yard.

"It's Brother Enxi. He must have something to do with me. I'll go out and have a look." Lin Changhong glanced at Cai Mulberry, turned around, opened the door and walked out.

Lin Caisang: "..."

Brother, didn't you hear Ya Enxi also call Lin Changfeng and her name? It must have something to do with them. Why are you going out alone?

Also, although this one tael of silver is not much, do you really not accept it and let it be spread out like this?
