Chapter 402 Don't talk nonsense

"Grandma, I don't think there's anything to discuss about this marriage. Even if Yaguman is so good, with such a pair of parents, whoever marries Yaguman will not have a good life in the future, so you'd better let them go.

She looked at her grandma and suggested.

"What?"

Yaguman's mother was stunned when she heard what she said.

"Forget it? How can we forget it? Aunt Qiubo, we have agreed, and you don't want to talk without keeping your word."

She is still waiting for Ya Guman to move to the old house. If the marriage is not finalized, won't she still have to eat at home? Who could afford to feed a stupid son like hers?

"If you don't want me to regret it, just shut your mouth. If you dare to say anything about Sangsang again, we're not done!" Lu Qiubo's face didn't look good, and he said loudly to her.

From the moment she walked in, she kept talking. Not to mention that nothing happened without her. Even Ya Guihua, the matchmaker, didn't have the right to speak.

Does she talk and act like this?

"you--"

"Sang Sang, what do you mean, you think this marriage is wrong?" Lu Qiubo ignored her and looked directly at his granddaughter.

"Grandma, look at this aunt. Even if Yagu Man really separates from his family and lives alone, can she really spend the money she earns on her own?"

Lin Caisang reminded Lu Qiubo.

"At that time, with her mouth that can talk about life even if the dead are dead, she will take away all the good things in Yaguman's place, and what will be left for Yaguman and He'er? ? It's not enough to fill your stomach, right?"

"this....."

After hearing what his granddaughter said, Lu Qiubo hesitated.

She felt something was wrong just now, but she couldn't remember it for the moment, so she wanted Chang Yi to call Sangsang back and ask her what she meant.

Now that Sangsang reminded her, she immediately understood.

"Sang Sang is right. You can't agree to this marriage so quickly. Your family hasn't even figured out your own affairs. I, the granddaughter of the Lin family, cannot marry into your family and suffer hardship."

She looked at Yaguman's mother seriously and said.

"How did this happen?"

Yaguman's mother quit immediately when she heard that Lu Qiubo had regretted it.

"Aunt Qiubo, didn't we just make an agreement? The marriage has been decided. You..."

"Our whole family just listened to what you said, did we say anything?" Lu Qiubo refuted her words.

"Besides, what did you agree with us? How come the marriage is settled? What did your family bring to my house? Where is the betrothal gift? I haven't seen anything."

"you--"

Yaguman's mother was so angry that she died.

"Sang Sang, as the saying goes, it would be better to demolish ten temples than break up one marriage. Your aunt has done this for you. How can I handle it?"

She looked at Lin Caisang complainingly.

"It's up to you."

Lin Caisang raised his eyebrows indifferently.

"You... Sangsang, you can eat whatever you want, but you can't talk nonsense. Why are you like this..."

"Auntie, it turns out you know not to talk nonsense." Lin Caisang curled her red lips and looked at her intently.

"I....."

Yaguman's mother finally understood.

It turns out that Lin Caisang made things worse for her just because he said he liked her, so she was unhappy?

"Sang Sang, my aunt just praised you, but you can't..."

"Auntie, I really don't need your praise. I just know how good I am. As for others, I can't let others say how good I am!"
