

Star of Space 436

Chapter 436 Worried again

"good.

Ya Molian pulled her a little closer to her and nodded.

In the past, he could not care about anything. For him, as long as he finished what he wanted to do, it didn't matter whether his life was longer or shorter.

But it's different now. He has her and wants to grow old together with her. He cares about his body very much.

"Don't talk about how you deserve it."

Lin Caisang glanced at him and sneered in his heart.

"You think I don't know, and you say so, but in fact, all the things you do every day can make you tired, right?"

Yamolian: "..."

Is he really that busy? Haven't you been by her side lately? Have you ever left her?

Just when he was about to open his mouth to defend himself, he heard Lin Caisang muttering secretly.

"It seems that I have to take on a few more missions. At least I have to upgrade to the poison technique. Otherwise... I don't know how long it will take for the poison on your body to be cured."

But upgrading is not that simple. Not to mention the special task just once, even the high-level tasks Jinzhu Space chose for her are not available whenever she wants.

Breeding is level two and can be upgraded immediately.

But after breeding, the third level is planting, growing food, and the fourth level is the poison technique. If she wants to upgrade the space to the fourth level, it will definitely be impossible this year, and next year... it may not be possible.

Besides, you don't get all the books by upgrading your space. Just like medical skills, you have to learn them bit by bit.

Some books can only be exchanged for points.

Thinking of the upgrade progress and learning progress of this golden bead space, she felt worried again.

"Sonny."

Ya Molian's voice brought her back to her senses.

"Um?"

She looked sideways at him.

"What's wrong?"

"fine."

Ya Molian shook his head, pulled her whole body into his arms, and let her head rest on his lap.

"You've been too tired recently. You'll have to think about these things later. Get some sleep first."

"Um."

Lin Caisang nodded.

She was indeed very tired. She lost too much blood because of the eldest princess's poison, and then she studied it day and night for several days.

Later, Ya Molian was injured again, and she was worried about the poison on his body. Recently, she was thinking about opening a shop. She felt that she was really busy and tired.

"I'll squint for a while and call me when it's safe."

"good."

...

Yejun, Qiyuan.

This is Ya Molian's garden in Ye County, and the carriage is parked at the gate.

"Palace Master, here you go..."

Ban Jue jumped out of the carriage, and just as he opened the curtain and wanted to speak, he was choked back by the sharp gaze of his palace master. He turned slightly and saw Lin Caisang, who was sleeping soundly in his palace master's arms.

Seeing Ya Molian gently picking up the person, he quickly opened the umbrella with one hand and opened the car curtain with the other.

Yamolian carried the sleeping Lin Caisang into Qiyuan under the escort of banjue.

"Palace Master, I ordered someone to prepare a bowl of ginger soup."

After entering a room, he saw that Lin Caisang was protected by his palace master and was not wet in the rain, but his palace master's entire back was wet, so he said quickly.

He also stepped back and quickly left the room.

Ya Molian didn't say anything when she saw him leaving, she just put Lin Caisang in her arms on the big bed that had been made up.

As soon as he moved, Lin Caisang opened his confused eyes.

"arrive?"

Looking at the unfamiliar environment in front of her, she almost didn't react. It took her a while to realize that she had arrived at Qi Garden, which Ya Molian had mentioned to her before.
