

Star of Space 448

Chapter 448 Pressure

Everyone was talking to her, and they were all talking together. The end result was that she couldn't hear a word clearly, but her ears were almost deafened by the sounds.

However, although he could not hear anyone's words clearly, Lin Caisang still understood.

There are so many people gathered here, are they all coming to her for medical treatment? Before, she thought the Zeng family had caused some trouble, and thought that the Zeng family was really unlucky, with troubles coming one after another.

But now it seems that the biggest trouble for the Zeng family at the moment is her, right?

"I'm here to visit relatives."

After thinking for a moment, she weakly explained to those people.

Well, it's not too late for her to recognize her relatives as Zeng family, right? Although it was not necessary, she thought that if she was hit by these people, she would be bitten by these people until there was no good flesh left on her body.

"Visiting relatives?"

One of the housekeepers reacted and immediately frowned.

Then, several people dispersed in a hurry, and glanced at Ya Molian who held Lin Caisang in his arms.

"That's right. I really inquired before. The doctor's girl came alone, with no one else around. Seeing that the girl is so young, it can't be her."

After that, no one paid attention to Lin Caisang and Ya Molian.

Looking at this scene, Lin Caisang and Ya Molian looked at each other. The latter closely guarded her and moved to the courtyard door, and soon knocked on the courtyard door.

"Uncle Zeng, are you and Yulang at home?" Lin Caisang shouted to the yard.

"Who?"

A young voice rang out in the yard, and Lin Caisang could tell it was Zeng Yulang's voice.

"Brother Yulang, it's me, please open the door."

Not wanting the people behind her to know her identity, she shouted vaguely into the courtyard.

In the yard, Zeng Yulang was confused. He didn't know who the person outside the door was, and what kind of brother Yulang he was. How could he have such a sister, even his cousins?

However, thinking that it might be a relative at home, he still opened the courtyard door.

"you--"

Seeing the person standing at the door, Zeng Yulang's eyes lit up and he almost screamed.

Lin Caisang immediately made a silencing gesture to signal him not to talk nonsense.

"Brother Yulang, my father heard that something happened to your family and asked me to come over and take a look on his behalf." She said to Zeng Yulang.

"oh oh."

Zeng Yulang glanced outside, and after seeing those people, he understood.

"Come in quickly and we'll talk later."

He directly invited the two people in, and then closed the courtyard door unceremoniously.

"Why is this? I still have something to ask." Those who had been waiting outside the door for a long time were unhappy when they saw the door being closed.

They didn't know what kind of cramp they had just now, and they didn't even say anything. They were just ordinary people. As long as the door was opened and they put a little pressure, they had to tell them everything they wanted to know.

But this Zeng Yulang actually closed the door directly.

...

"What's going on outside?"

After entering the courtyard, Lin Caisang was not polite. After sitting down, he asked Zeng Yulang directly.

She didn't remember that she was so famous in Jian'an City, but so many people came to Zeng Yulang's house to ask for medicine. What exactly was going on, she still didn't understand.

"Ms. Langzhong, I'm so sorry."

Zeng Yulang's face was full of apology and he spoke to Lin Caisang.
