Chapter 456 How terrifying

What's more, whether the girl wants to make friends with those people, we are not her, and we cannot guess what she is thinking. If we let those people wait outside the house, wouldn't we directly tell the girl that this matter is allowed by this palace?

That girl is my savior. I must treat her with courtesy. How can I trap her into injustice? "

"Tsk."

The second prince listened to the eldest princess's words and tsked lightly.

"I can't tell, those people are so scheming, even my aunt dared to take advantage of them!"

It seems that he hasn't talked to the young masters in the mansion for a long time, and they all feel that he has great abilities.

"Don't worry, girl, I will definitely talk to those people another day!"

"Um."

The eldest princess responded.

Whatever the children do, as long as they don't go too far, she won't object.

"Feng'er, how is that person doing recently?" She turned around, looked at the great prince, and asked.

The eldest prince was silent for a while after hearing her question. Although he didn't want to speak, he still had to speak.

"Auntie, don't worry, Feng'er won't let that person have an easy time. As long as he stays in Jian'an City for a day, he won't get his wish. Father is also watching closely. He just asked Feng about that person's situation a few days ago.

he said.

"Well, that's good." The eldest princess nodded.

The three of them fell silent, because no one spoke anymore about the 'that person' the eldest princess spoke of.

After a while, Aunt Bai came back, followed by a girl. She was none other than Lin Caisang who had just come out of Zeng Yulang's house and came to the eldest princess's mansion.

Because the eldest princess was a female, Yamo Lian still didn't come in. She just found a place outside the mansion, sat down, drank a cup of tea, and waited for her.

"Hey, isn't that the doctor's girl? Why is she here?"

When the second prince saw Lin Caisang walking towards them from a distance, he felt embarrassed and stood up, almost finding a crack in the ground to get in.

"Well, aunt, big brother, I'll leave first if I have something else to do."

After saying that, he didn't even dare to walk over to Lin Caisang. He directly found a corner and climbed over the wall.

The eldest princess: "..."

This child really did something wrong, why did he only know how to avoid it?

The Great Prince: "... "

He was laughing in his heart, and said to himself, it seems that his father and mother really scolded the second emperor brother too much. Look at the second emperor brother, he even saw Lin Caisang's face.

Lin Caisang was speechless as he looked at the figure running away in a hurry.

Is she a jackal or a tiger and leopard? Is it necessary to run so fast when I see her? I've seen her several times before, and I haven't seen him act so strangely, as if she was scary.

"Aunt Bai, was that the Second Prince just now?" she asked Aunt Bai who was guiding her.

"Girl, that's the Second Prince. Maybe the Second Prince left first because he had something urgent to do." Aunt Bai responded. After thinking about it, she still tried to cover up the situation for the Second Prince.

In fact, it's not the second prince's fault. Originally, it was okay for him to see Lin Caisang.

But I don't know what the emperor and the empress were thinking these days. They called the second prince into the palace every day. After he came back, he always looked helpless and couldn't help but complain that his father, the emperor, and his mother treated an outsider as a relative and treated him like a relative. His biological son should be adopted.

It seems that the emperor and the queen scolded the second prince frequently and praised Lin Caisang to the heavens in front of the second prince. The second prince was afraid that he would be embarrassed when meeting Lin Caisang.
