Chapter 482 Going to give someone a head

"My subordinates must bring her to the leader.

"Chief, that girl is difficult to deal with. Wouldn't it be inappropriate to take her down directly?" At this time, another subordinate couldn't help but put forward his own opinion. He didn't want to be the leader's cannon fodder in front of his master.

"What's the meaning?"

The leader narrowed his eyes and asked, extremely displeased with what this subordinate said.

"Do you dare to question my decision? Huh?"

"My subordinates dare not."

The subordinate immediately lowered his head, but still told his leader about the power of this.

"Chief, I just feel that since the girl can cure the poison on the eldest princess, she has poison skills. Even if we catch her, she can poison us in a flick of her hand. , I'm afraid we won't even know how we died."

"this....."

The leader hesitated when he thought that Lin Caisang might be full of poisonous skills.

"Old Ten, you are too careful. Let's take her down and just take off her clothes!" Another subordinate said immediately when seeing the leader's hesitation.

Anyway, he just felt that it was not that simple to force the girl to surrender to him, so he might as well just capture her and tame her.

"Lao Liu, just continue to coax the leader. If you mess up the matter when you see it, the master will want the leader's head, or will he want your head!" Lao Shi glanced at Lao Liu coldly and looked towards leader.

Sure enough, after hearing what he said, the leader's face turned green.

Yes, why didn't he think that if he did things according to his master's method, even if he failed, he would be scolded a few times at most, but if he persisted in his own way, he would have touched his master's inverse scale.

It's not certain whether he will still be alive by then.

"And, let me ask you."

Seeing the ugliness on the leader's face, Old Ten had already been persuaded by him, so he continued to look at Old Six and asked him.

"The man next to that girl is unpredictable. Do you have the ability to steal someone from him? You have to think clearly whether it will be us who will steal someone or give him away."

"I....."

Lao Liu opened his mouth.

He flinched a little when he thought of Ya Molian's scene where the cold air all over her body made her hands and feet stiff.

But the words have been spoken, he can't even give up his own face, he must earn it back in front of the leader, otherwise how can he stand in front of the leader in the future, all the good things will be robbed by Lao Shi.

"Old Shi, can you stop emphasizing other people's ambitions and destroying your own prestige? If you're not just a man, what's so great about it? Can we just bring more people there? I don't believe it anymore. He still has It has three heads and six arms!"

"laugh!"

Lao Shi sneered, ignored Lao Liu, and looked at the leader.

"Chief, regardless of how many more people Lao Liu said he would bring with him, as he just said he caught the girl and took off her clothes, do you think that if the master reuses the girl, we, Can people who have humiliated her have a good ending?

I'm afraid that by then I won't even be able to die, but I'll be unable to live or die, right? "

"this....."

After listening to Lao Shi's words, the leader's face was so dark that he could drip with ink.

"Lao Liu, what bad idea did you give me! Do you want to pull me down from the position of leader and replace it yourself?" He pointed at Lao Liu and asked sharply.
