

Star of Space 500

Chapter 500: Cook a bucket of rice for you

When a group of people were getting out of their teeth, the looks from the people around them could really kill them. They were filled with envy, jealousy, and hatred.

Fortunately, not long after, Jiang Li came over in several carriages and picked up everyone directly.

Lin Caisang just told Jiang Li a few words about where he would go and what he would do in the future. The woman who was pregnant with the child also told Jiang Li that it was OK to train him, but he could not harm the child in her belly.

Everything here has been done, and I have been out for a long time, so I have to go home.

...

The Lin family in Yacun.

Although Lu Qiubo had previously told her granddaughter to take her time and not to rush, she still looked forward to the stars and the moon every day for her granddaughter's return. The longer time passed, the more she muttered.

"Mom, how could Sangsang come back so soon? It's not that easy to find the shop. If you don't find it well, you'll be blind." Lin Baiyi came back carrying a few bamboos in the rain and looked at the people standing there. My mother, who was peeking out from the kitchen door, couldn't help but say something.

He cut a lot of bamboo in the bamboo forest today and carried it back again and again. Every time he carried it home, he could see his mother poking her head into the yard. He knew who she was waiting for without even thinking.

It's definitely not waiting for him anyway.

"Go on, do you talk like that?" Lu Qiubo couldn't help but cursed when he heard his son's words.

"Sang Sang's shop hasn't even opened yet, and you, an uncle, are cursing her? Be careful that she won't spend the money she earns on you in the future!"

She also knew that her son was trying to persuade her, not to say anything about her granddaughter, and she didn't really blame Lin Baiyi.

"Okay, it's okay if I'm wrong?"

Lin Baiyi put the bamboo in the yard and admitted his mistake with a smile.

"You see it's getting dark today. It's not easy for me to carry so many bamboos back and forth, your son. Can you give me a hot meal?" he asked.

"Okay, I'll cook you a bucket of rice later, okay?" Lu Qiubo asked him angrily.

"What are you doing with so much bamboo today? Go to Menghuang Mountain to have a look when you have time, or do your carpentry work. I think these bamboos are all from this year. What's the use of such a short festival? It's not a waste of time."

"I am of great use, and I am not wasting my time." Lin Baiyi disagreed with his mother's words.

"Didn't you see the jars that Sangsang used to store dried cherries last time? They were all made of bamboo. The knots were too long to be used. This one is just right. I thought it was still raining these days. Anyway, it's okay, just make more, Sangsang will definitely use it in the future."

"Tsk, it's true."

After his son said this, Lu Qiubo remembered that if he really wanted to sell fruit in the future, these jars would be indispensable.

"Then you should do less in a day. You will tire yourself out. Why move so much?"

"Move back a little longer and you won't have to get wet in the rain these days." Lin Baiyi said.

Normally, he just occasionally goes to Menghuang Mountain to take a look. These days, he can make these things at home every day.

"Mom, hurry up and cook, I'm really hungry."

"well."

Lu Qiubo responded with a smile.

She thought to herself that she really didn't marry the wrong person. Although there were two evil obstacles in the family, the other people were really happy to form a family. She felt comfortable living such a life.

"Grandma, I've eaten too. Please cook some food for me."

Suddenly, Lin Caisang's voice sounded outside the yard, and then Lin Caisang walked in with Ya Molian.
