

Star of Space 506

Chapter 506 Brother Mo Lian, what a coincidence

"Forget it, let's go ahead and see if there's anything else we can catch. They're all small ones, but I haven't seen any bigger ones. It's really... impossible to kill them quickly.

She was worried that if Ya Molian discovered that she had entered the inner forest, she would have to be punished.

"Don't be discovered by Brother Mo Lian."

She couldn't help but mutter, turned ninety degrees, and was about to continue exploring inside, but when she saw a suit of gray clothes, she almost screamed in fright.

"Well....."

What did she just say? Look at her crow mouth. She really has whatever she wants.

"Brother Mo Lian, what a coincidence, you also come to Neilin to catch prey?"

Raising her free hand, she looked at Ya Molian, who had a stern face, with a guilty look on her face, and asked.

She actually didn't want such a coincidence at all, okay? Can you pretend that you didn't see anything and that they never met in Neilin? Okay?

"What a coincidence?"

Ya Molian looked at her steadily and asked her.

"No...isn't it a coincidence?"

Hearing his question, Lin Caisang felt even more guilty.

It seems that Ya Molian guessed that she entered the inner forest and came here to find her, right? Hey, if I had known she would not be afraid of trouble, she would go for a walk on Menghuang Mountain first and let Brother Changfeng and the others know that she went into the mountains to pick wild fruits.

But she was also afraid that if she went to Menghuang Mountain, she would probably run into Ya Molian, and then she would really have no chance of entering the inner forest.

"Brother Mo Lian, what is that in your arms?"

Although she felt guilty, her eyes were sharp. She had seen the little white creature moving in Ya Molian's arms early in the morning. It should be the white rabbit she didn't catch just now, right?

He was actually caught.

Doesn't that mean that he saw all the embarrassment he had when he was lying on the ground just trying to catch a rabbit?

Thinking of this possibility, she touched her nose sheepishly.

"arctic fox."

Yamolian spit out two words lightly.

"What? White fox?"

Lin Caisang was shocked by these two words and looked at the little one in his arms in disbelief.

"It's actually a white fox, isn't it a white rabbit? Is this the one I didn't catch just now?"

It turns out to be a white fox, so it makes sense that she didn't catch it. The white fox is much more agile than the white rabbit, so it's not an exaggeration to think he could escape from her.

"Brother Mo Lian, you are so good, you can catch all this! If I had known, I would have dragged you into the inner forest with me. Not only can you catch animals that I can't catch, but you can also protect my safety. "

Well, she wears a lot of clothes and flatters her, but who makes her really make the man in front of her angry now?

Whoever provokes it will be coaxed.

"Take it first, and I'll settle the score with you when I get back!"

Ya Molian handed the white fox that was still moving in her arms to her and said helplessly.

Now he was in the inner forest. Even if he really wanted to reprimand her, he shouldn't be here. He should wait until he gets back.

"Yeah."

Lin Caisang breathed a sigh of relief after hearing what he said.

As long as she's not angry now, it's okay. As for after they go back, they sneaked around in the inner forest for a while and their anger is almost gone. The most they can do is give her a few words.

She took the white fox from Ya Molian's hand, turned it over in her hand, and saw that the white fox disappeared in her hand.

"You entered the inner forest like this, do you want to catch all the animals in the forest?"
