

Star of Space 511

Chapter 511 Peacock Mask

'Yes.

Yu Jing agreed with her statement.

"Then why haven't you heard of gratitude before?" Lin Caisang asked.

There is no record or introduction of the so-called gratitude value in the Golden Pearl Order. It seems that she has not seen it elsewhere.

"When you were in the medicine garden before, didn't you say that you wanted to create a pattern for raising ice silkworms? Didn't you have to spend points? Then I can spend gratitude points now, is it okay?"

she asked before thinking of it.

'If you put the ice silkworms in the pasture space, you can use the gratitude value to divide them into a pattern, but not in the medicine garden. In the medicine garden, the patterns that can be divided are limited. What I know now are only the water pattern, the ice pattern, the fire pattern, and the earth pattern.

"hehe."

Lin Caisang raised his eyebrows.

The medicine garden was originally laid out according to the properties of the medicinal materials. Some medicinal materials like water, some medicinal materials are cold-resistant, and some medicinal materials like heat. Ice silkworms are the kind that can fly and can crawl on the ground.

"Forget it, when I have time, I'll just raise the ice silkworms in the pasture. Then if I raise the ice silkworms in the pasture space, do I have to create a separate layout?" she asked.

'Yes, gratitude is enough.'

Without Lin Caisang asking, Yu Jing finished what she wanted to ask.

"That's good."

Lin Caisang nodded.

...

After dividing the space of the ranch and letting all kinds of animals belong to their own places, Lin Caisang left the Jinzhu Space and went to the kitchen, but did not see Ya Molian.

She turned out again and heard the movement outside Ya Molian's room.

"Brother Melian, what are you doing?"

At the door of the room, Ya Molian opened the door and came out, holding four boxes stacked on top of each other.

"What is this?"

Seeing him walking towards her with the box, she asked doubtfully.

Are these boxes meant for her?

"Open it and take a look."

Ya Molian pulled her into the main room, put three of the boxes on the table, and handed the box in her hand to her, gesturing for her to open it and see what it was.

Lin Caisang glanced at the box, then looked up at him, then looked at the box again, hesitated for a while, and finally reached out and opened the box.

"Wow, what is this, a mask?"

The moment she opened the box, she was shocked by the golden thing inside.

In the box, there is a mask made of pure gold that can only cover the upper half of the face. The pattern on the mask is a lifelike peacock. The golden peacock seems to be flying out of the box.

"For me?"

She asked him flattered, pointing to herself.

"I thought about it again and again, and I think you should wear a mask when you go on a mission. It will be safer." Ya Molian said calmly.

"Because you were a little fat, people didn't recognize you anymore from the missions you did. But from now on... if you take missions like this and run around everywhere, it's best not to let anyone see you. Face.

Firstly, it is more mysterious; secondly, it is also for yourself. "

"Ya Molian, are you too thoughtful?" Lin Caisang was simply shocked.

"To tell you the truth, I had thought about wearing a mask when I was going on a mission. This mask is so convenient. Did you draw the patterns on the mask yourself?"

"Um."

Yamolian nodded.
