

Star of Space 512

Chapter 512 Without you

"I originally wanted to draw a phoenix, but in the end it was too conspicuous, so I drew a peacock. Do you like it?"

"I like it, I like it so much. Lin Caisang kept nodding his head.

It would be unreasonable for her not to like such a beautiful mask. The key is that it is very practical and is exactly what she needs now.

"As long as you like it."

Seeing that she liked it, Ya Molian was also happy.

"I made four pairs, two pairs are made of pure gold and two pairs are made of pure silver. You can keep them both."

"Do so much."

Lin Caisang was so moved that she reached out to hold Ya Molian's arm and rested her head on his shoulder.

"Brother Mo Lian, tell me how I would live my life without you."

This man really thought everything over for her, not missing a single detail. She felt like she was about to become a rice worm who couldn't reach out for clothes but couldn't open his mouth for food.

"Won't."

Ya Molian stretched out her other hand and patted her face.

There will be no life without him, he will always be by her side, forever, forever.

"Um."

Lin Caisang nodded vigorously.

...

In the next few days, Lin Caisang has been refining scar removal cream on Menghuang Mountain and picking wild fruits to make dried fruits. Lin Chushui did a good job without her intervention.

But because the family only said that the shop was rented for a month, it must be opened within a month, and the family did not have enough manpower, so the people who went to the mountains to pick wild fruits could not be members of the family.

At this time, Lu Qiubo suggested that wild fruits could be harvested in the village.

Although Lin Caisang had his own concerns, after all, he had too many things to do. If the wild fruits did not need to be harvested, it would definitely not be enough, so he could only agree, but still told his family about his worries.

It was her grandpa who came up with a good idea.

He asked Lin Caimulberry to fix a few families to go to the mountains to pick wild fruits and sell them to them, but not to accept wild fruits from other families.

Just like at the beginning of the year, Uncle Jin's family harvested pigweed, and there were also several fixed families. Those who cut other grasses to make up for the money would not be harvested, and they directly made it clear that they did not want their pigweed.

If they learn from one thing, they will do it accordingly.

In this way, the families who picked wild fruits were decided, including Ya Yufeng's family who used to go hunting with Ya Molian in the mountains, Ya Enxi's family, and several families who were close friends with Lu Qiubo.

Originally, they could follow Ya Mo Lian and collect more bird's nests in the mountains to sell, but now Ya Mo Lian doesn't go into the mountains to collect bird's nests anymore, and secondly, Lin Cai Mulberry's price for buying wild fruits is also high. Yes, the money they earn from picking bird's nests in a day is not as good as picking wild fruits.

Comparing the two, they are happy to pick wild fruits.

The key is that you can often pick wild fruits, and you will get a good harvest every day, but picking bird's nests... is really impossible without some luck, and the possibility of starvation is also very high.

On this day, Lin Caisang was busy on Menghuang Mountain. Suddenly the door of the pharmacy was opened, and she looked over and saw Lin Chushui.

"Chu Shui, is something wrong?"

Normally Lin Chushui would not bother her when she was refining medicine, but if he came here now, something must have happened.

"Sister Sang Sang, I heard Third Uncle and Brother Changfeng whispering over there last night." Lin Chushui did not say anything else and directly explained his purpose to her.

"What happened? What did they say?"

Lin Caisang asked without doubting his presence.
