

Star of Space 517

Chapter 517 Is there any hope?

"Well, it's okay, let me take a look for you first.

Lin Caisang stood up, stretched out his hands and pinched his arm a few times. When he pinched some places, he saw that he was so painful that cold sweat broke out on his forehead, but he still gritted his teeth and said nothing. .

"Are these places hurting?" She pressed gently again and asked him.

"Yes, it's roughly that piece. It hurts so much if you move it even a little bit." Yagu Man replied.

"Have you ever seen the doctor before?" Lin Caisang asked again.

"I've seen it. I've seen Dr. Lin in our village. He said that my arm is useless. When Yaguman mentioned Dr. Liu, his expression was not very good.

Doctor Liu was the only barefoot doctor in their Ya village. He was a man. But because he didn't know what happened, none of the doctors in his village had a good ending. Doctor Liu asked everyone to call him Doctor. He is obviously a man, but he dresses himself up to look like a woman in order to make money.

And it was Dr. Liu who spread the news that his arm was disabled.

At that time, he really couldn't bear the pain, so he secretly went to see Dr. Liu behind his parents' back to treat him. Little did he know that Dr. Liu just took one look at his arm and concluded that there was no way to cure him.

Later, the matter was spread the next day, and his mother thought of finding a marriage for him so that she could find an excuse to kick him out and live alone.

Speaking of Dr. Liu, Lin Caisang also had a very bad impression of him.

Because when her grandpa's leg was injured, Dr. Liu didn't say anything to his lion, and said that it was because her blessings had been exhausted and she needed to use other people's yang energy to replenish it. He took off her grandpa's legs.

He was obviously a doctor, but he acted like a magician. Later, her grandfather kicked him out with a broom, and he never had any contact with their family again.

"You didn't look for another doctor afterwards?" she asked.

"It's all gone, what else are you looking at?" Yaguman asked her.

Besides, even if he wanted to see it, he had to see if his parents were willing to pay him to see the arm.

"Sangsang, do you mean that my arm can still be saved?"

"If you come to me now, of course you can be saved. But it won't be possible in a few months." Lin Caisang replied calmly.

"Sangsang, what do you mean?"

On the side, Lin Baiyi asked, why didn't he understand what his niece said?

"Third uncle, he just sprained his muscles. As long as he is treated in time, there is no big problem." Lin Caisang looked at the arm, took out the silver needle set from his small satchel, and spread it on the table. .

"But if in a few months, the sprained muscles and bones cannot be treated and become completely necrotic, then there will really be no treatment, and the arm will be considered useless."

After listening to Lin Caisang's words, Lin Baiyi almost gritted his teeth.

"This Dr. Liu is really doing a lot of harm to people!"

He was a good person, but with just a few words from him, he almost had an arm destroyed and became a cripple in everyone's eyes!

"I've said before that Dr. Liu is a bastard with an impure mind. She doesn't have the ability to do anything serious, but she has a lot of ability to scare people with her words." Lin Caisang said lightly.

Anyway, her impression of Dr. Liu was definitely not good. If it weren't for the fact that killing someone requires a life, she would have the urge to kill him.
