

Star of Space 53

Chapter 53 You are...wanting to separate the family

The medicinal materials that the little girl sent don't look like much at first glance, and they are not impressive at all, but any doctor with a sensitive nose can know that regardless of the quality of the medicines, they must have been carefully selected.

Sometimes, medicinal materials don't necessarily have to look good, but they also have to smell and have a strong taste to be a good medicinal material.

The medicinal materials Lin Caisang brought were good medicinal materials that could be smelled, especially those medicinal materials that were still semi-dry.

...

No matter what was going on in the drug store, on the street, Lin Changhong was carrying a bamboo basket on his back, holding half a tael of broken silver and more than 20 copper coins in his hand, his face full of excitement.

"Sang Sang, why are these medicinal materials so easy to sell? It's just a little more, just over half a tael of silver, and I've been hunting for several days." He looked at Lin Caisang as he walked and asked.

"With just a little money, you can succeed like this. Brother, can we make some progress?" Lin Caisang glanced at Lin Changhong.

"Well."

Lin Changhong's face turned red when she spoke, and he pursed his lips and stopped talking.

"This is just the worst medicinal material in our family, and it is not dried. If it is ready, it will be more valuable." Lin Caisang reminded him again when he saw that he was silent.

In fact, some medicinal materials are expensive and some are cheap. Calculated by kilogram, she feels that she is losing money by selling them, okay?

"Hmm, Sangsang, you are so awesome. If grandma knew about it, she would be extremely happy." Lin Changhong said.

"We can't tell grandma that they know about this," Lin Caisang said.

"What, why?"

Lin Changhong stopped and asked her puzzledly.

"Sangsang, do you want to make money by yourself?" he asked.

The only thing he could think of was that Lin Caisang wanted to hide the money he got from selling medicinal materials.

"It's not that I want to make money by myself, but I do have this idea. I will save the money I earn in the future. Maybe it can be put to great use in the future. Brother, you should do the same."

Lin Caisang looked at him and said seriously.

"Moreover, now Qing'er and Changyi go with me to dig up medicinal materials. I point them to where to dig them, and they can't recognize the medicinal materials at all. Brother, what do you think? From now on, I will always identify the medicinal materials in the mountains and dig them for Ah Nai and the others. Isn't that realistic, and the medicinal materials in the mountains are always limited."

This is the most important thing. You can't keep digging medicinal materials in the mountains for a few small ones at home, right? She also has her own things to do, and occasionally has to do a task or something.

"That....."

"Brother, I understand what you mean. In the past, my family could only rely on you for hunting and brother Changfeng to copy books to earn money to support the family. But it is different now. Third uncle can make things and sell them. The most we can do is buy him a bullock cart. , let him sell the goods."

Seeing Lin Changhong was about to speak, Lin Caisang raised his hand to stop him.

"Also, we can eat and drink at home, buy food and fabrics, etc., but we really can't do more for other things. It's not that I'm stingy and unwilling to contribute money and effort to the family, but the reality is this Anyway, I just want to save some money and plan for myself, brother, what do you think?"

"Sang Sang, do you... want to separate the family?" Lin Changhong was speechless.

Is that what he meant? Isn't it because you want to keep the money you earn by yourself that you want to separate the family?

Lin Caisang: "..."

How can this be a separation? What are you thinking about?

"Brother, you don't understand what I mean. What I mean is that from now on, the money we earn will be kept by ourselves, and the money earned by Third Uncle and the others will also be kept by themselves. We should also be more filial to grandpa and grandma. In this way Maybe it would be better, splitting up the family or something, but I really haven't thought about it.
