

Star of Space 531

Chapter 531 After all, there are many young people

Hearing this, the corner of Zhi Lingyang's mouth twitched seriously, and he turned to look at the carriage. The window of the carriage was blown up by the breeze, and the person inside could be vaguely seen. It was the prince who was leaning against the wall of the carriage to catch his sleep.

Was the eldest prince afraid that he would neglect Lin Caisang, so he came here to find a place for her?

However, this should not be the intention of the eldest prince. Even if the eldest prince really meant this, as a man, he would not find a place for a girl. The prince would not know this.

It seemed that this was the intention of the eldest princess. She was worried about Lin Caisang and specially asked the prince to come over.

He never expected that the eldest princess would pay so much attention to Lin Caisang.

"General, do you want to come over?"

Hearing the palace guard's question, Zhi Lingyang rolled his eyes and thought to himself, can he not go there?

It would be fine if he was in the mansion, but now that he has come out and has seen the Grand Prince's carriage, if this doesn't pass, wouldn't it be true?

He raised his hand to straighten his clothes and walked towards the prince's carriage.

After another half an hour, Lin Caisang arrived belatedly. When she saw the great prince appearing in front of her, she chuckled in her heart.

"My lord, why are you here?"

She naturally knew that the eldest princess must be worried about her coming to General Zhi's house alone. After all, she and Mrs. Zhi had a bad time last time.

"Auntie was worried about you being alone, so she asked me to come over and have a look." The eldest prince said it very bluntly in front of Zhi Lingyang, leaving Zhi Lingyang no face at all.

Zhi Lingyang felt uncomfortable after hearing what he said, but he didn't dare to show anything strange on his face.

Just when he was about to invite Lin Caisang into the mansion, he heard the eldest prince speak again.

"A few days ago, the guards reported that a lot of people were being watched outside my aunt's house. I am not worried about Miss Lin coming alone. After all, there are many young people in Jian'an City.

Miss Lin not only treats my aunt, but also came to Zhifu because of the honor of the eldest princess's house. Naturally, you have to take care of your aunt's safety.

Also, Miss Lin, my aunt asked me to invite an imperial physician over. This imperial physician usually only checks Ping'an's pulse for my father. He has very good medical skills. I see that you didn't bring your friend with you this time. I'll let him do it for you next time. I don't know what? "

With that said, he introduced the imperial doctor he brought to Lin Caisang.

"I've met the old gentleman." Lin Caisang looked at the imperial doctor and said hello.

I have never seen this imperial doctor before in the eldest princess's mansion. He seems to be quite easy-going, but I don't know if he will be the same as the ones I saw before. He is not forgiving but full of food. !

"I'll trouble you later, sir."

"No trouble, no trouble. It's my blessing to be able to help Miss Lin. I hope Miss Lin can give me more advice later." The old doctor said to Lin Caisang humbly.

"You're welcome, sir."

Lin Caisang replied and looked at Zhi Lingyang.

"General Zhi, please lead the way. Is the room ready? Where is the eldest lady, are you waiting in the room?" she asked.

"Everything is ready, Madam is already here." Zhi Lingyang said.

"good."

Lin Caisang nodded.

After a while, he stopped Ling Yang and took him to a yard.

She first took out two pills of hemp powder that had been prepared for oral administration and gave them to Zhi Lingyang, asking him to dissolve the medicine in water and give it to Jin An'an to drink. Then she went to another room and took her clothes. Replaced.
