

Star of Space 533

Chapter 533 Is it unconscious?

"Nature is real.

Lin Caisang put all the utensils away, and then spread a piece of white cloth on Jin Anan's face, revealing only the scar.

"It's just that the old gentleman wants to promise me that this recipe can only be used where it should be used. If it is used for evil, I will not allow it, and I can take it back from your hands."

"Okay, okay, I promise not to use it for evil." The old doctor agreed.

He can be known to the emperor and serve as a servant in front of the emperor. How can he be without character?

He only heard about the incident that day when the imperial doctors in the palace besieged Lin Caisang. If he had been there at that time, those people would not have dared to talk. He would just slap them with a loud mouth. How could he be polite to them?

"We'll talk about this later. Old sir, have you remembered all the tools I introduced to you just now?" Lin Caisang asked him.

"Remember, I'll tell you again."

The old doctor was also cautious. He told Lin Caisang the names of the instruments again before letting Lin Caisang do it.

...

Two hours later, in the backyard of Zhifu.

"Lao Gu, do you think this girl Lin is unconscious and can still eat?" The prince was speechless as he watched Lin Caisang eating with big mouthfuls, especially the shredded meat.

He turned slightly sideways and lowered his voice to speak to the ancient imperial physician beside him, trying to get the resonance of the ancient imperial physician.

But he thought wrongly. He saw the ancient imperial doctor also eating in big mouthfuls, and while eating, he greeted him and asked him to eat more.

"Your Majesty, you should also eat. People say that the chef of Zhifu is a famous chef. When I saw him today, he really lived up to his reputation."

The Great Prince: "..."

How could he possibly eat it? Just now he really watched Lin Caisang scraping the bones on Jin Anan's face. The sound of the scraping was still ringing in his ears.

Moreover, she actually let him lift Jin Anan's face, and her hands stayed there. For more than an hour, he felt that his hands were not his own and no longer obeyed his orders.

Sure enough, as Lin Caisang said, this job requires strength. If it were the ancient imperial doctor, he would not be able to hold on long ago, right?

"You go ahead and eat, I can't eat it." He swallowed and said in a grumpy voice.

"oh."

The ancient doctor nodded, but he knew what the great prince was thinking.

"Your Majesty, I am a doctor, and I am often sent by the emperor to serve as a military doctor in the army. I have seen many injuries with missing arms and broken legs. In my eyes, Mrs. Zhi's injury is really not worth mentioning. "

He explained.

Once upon a time, a general in the army was hit by a poisonous arrow. Didn't he scrape off the poisonous flesh bit by bit and make a hole in the bones?

There's nothing surprising about this. It's just that the eldest prince has lived in Jian'an for a long time and has never seen things outside. That's why he couldn't accept Lin Caisang's method of healing the eldest lady.

The Great Prince: "..."

It's okay if he doesn't explain it. When the ancient imperial doctor explained it, he thought of bloody arms and legs...

"Your Majesty, Miss Lin, is my wife okay now? When will she wake up?" After a while, Zhi Lingyang came to the backyard from Jin An'an's room. He first saluted the Great Prince, and then Ask Lin Caisang.

"The medicine will still take effect for a while, so why worry?" Lin Caisang said while eating.
