

Star of Space 537

Chapter 537 Let me catch you

By the way, I don't know who those people are who are keeping an eye on Miss Lin. According to the Grand Prince's guess, he thinks they are probably the ones who poisoned the eldest princess. The Grand Prince has already started asking people to investigate. I believe they will be there soon. There will be news.

"No, I'll say a few words to the Zeng family, and my friend will pick him up later. It won't be a problem." Lin Caisang explained.

"That's okay."

Seeing that she really wanted them to leave first, the ancient doctor could only leave with the guards.

But before leaving, he still checked all the places in the alley where people could hide. It wasn't until he thought it was safe and those people were scared away that he really left with the guards.

After they left, Lin Caisang saw that there was no one around, and then he took out a bamboo basket from the Jinzhu Space and carried it on his back.

He raised his hand and knocked on Zeng's door.

After a while, old man Zeng came out and opened the door. When he saw it was Lin Caisang, he quickly pulled her in.

"Miss Lin, why are you here at this time?"

After closing the courtyard door, he lowered his voice and asked Lin Caisang in a low voice, then leaned on the crack of the door and looked outside carefully for a while, then straightened up.

"Uncle Zeng, what are you doing?"

Lin Caisang was amused by his careful look and asked him with a smile.

"Beware of thieves.

Old man Zeng replied.

"Miss Lin, you don't know. Ever since you and the young master stayed at my house for one night, I always felt that someone sneaked into my yard at night to look for someone. No, I caught him the day before yesterday."

"What?!"

Lin Caisang was startled by his words and quickly looked at him carefully.

"Are you okay then?"

Those people are not good people. If they are caught, they will probably kill and silence them. Anyway, they are all desperadoes and can do anything.

"it's okay no problem."

Old man Zeng gave up and returned to his smiling face.

"I didn't dare to rush into the yard. I just watched the activities in the yard from my room. It was dark and they couldn't see me."

He is not someone who rushes out casually. After all, there is not only him in the family, but also his son. He can't act recklessly. It will not work if he turns around and harms his son.

"That's good."

Lin Caisang let out a sigh of relief.

"Uncle Zeng, those people are here for me. I must not take the initiative to provoke them. As long as you act like you don't know, those people won't do anything to you. If it doesn't work, just use my name to grow up." Ask for help in the princess's mansion, the eldest princess will help you."

She thought for a while and warned Old Man Zeng.

She still doesn't know who those people are, but from the beginning they were just hiding in the dark, and now they are so obvious that she can find them, and she doesn't believe that they are incompetent.

They deliberately let her know about the existence of their people so as to lay the groundwork for 'recruiting' her in the future.

"It's a blessing, not a curse. It's a curse that can't be avoided. It's okay." Old man Zeng was very optimistic.

They were just common people, and the people who were watching secretly were all big shots. If they were tracked by the government in order to move the two fathers and sons, those people would definitely lose more than they gained.

Forgive those people and they won't do anything to them.

"Miss Lin, why are you here today?" he asked.

"I treated Mrs. Zhi's facial injuries in the morning. Seeing that there was still time, I came over. No, I have brought all the medicine that I should get. If those people who are asking for medicine come here to look for it, please help. I'll just give them the medicine, and you can take the money."
