

Star of Space 539

Chapter 539 Follow you to do things

In Jian'an City, a place where land is at a premium, you may not be able to make money by opening a shop, but a shop can be sold for a good price.

"For someone like me who has no connections and can't sell anything good, I can only hit my head blindly. If I hit someone who can make money, I will make a few more. If I lose money, I will stop immediately."

He smiled sheepishly.

"Everyone is like this."

Lin Caisang also smiled and replied.

"Dad, I'm back...Miss Lin, why are you here?"

While he was talking, he saw Zeng Yulang coming back from outside. He opened the courtyard door and saw Lin Caisang. He was stunned at first, and then asked.

"I just happened to be passing by here, so I came to take a look." Lin Caisang replied.

"Yulang, what did the academy say? Did the deputy dean tell you? What's going on?" Old man Zeng asked anxiously when his son came back and ignored Lin Caisang.

"What else could it be going on? It's not that woman who did it. The vice-dean told me that it was the Marquis Mansion that used its power to suppress the academy, and that's why my name was removed."

Zeng Yulang said bluntly.

This is something you don't have to think about, it's so easy to understand.

Yan Jinhua must have heard that his face was almost healed after being treated by Lin Caisang. She thought that this method would not work, so she tried to mess with him in different ways. In a word, she just didn't want him to live better than her. Good thing, because he was a poor scholar who was kicked out by her!

"This Yan family is simply a bastard!"

Old man Zeng turned red with anger and cursed bitterly.

"Then what are you going to do, read at home? Is that possible?"

"The same goes for reading at home. I have already agreed with the deputy dean that I will borrow books from him when the time comes. He has many books there," Zeng Yulang said.

The deputy dean is the only good person in the entire academy. Among the others, he shook his head. When he went to the academy today, the way we looked at him seemed as if there was something dirty on him.

They were all people who climbed high and squatted on the ground. He finally saw clearly.

"Dad, what are you and Miss Lin talking about?"

"We are planning to sell our grocery store. It just so happens that Miss Lin wants to buy a store in Jian'an City. Isn't our store suitable?" Old man Zeng said to his son.

"Miss Lin is going to open a shop in Jian'an City?" Zeng Yulang looked at Lin Caisang, a little surprised.

"I naturally want to do some business when I have a shop. I can't hold back a few dollars in my hands. I just want to do some small business to pass the time." Lin Caisang said with a smile.

"Besides, the emperor rewarded us with acres of fertile land before. We can't just grow food but not sell the goods."

"Miss Lin, what do you think of this?"

After listening to her words, Zeng Yulang thought for a while and then spoke after a while.

"My shop will be given to you. From now on, my father and I will help you take care of the business in the shop and follow you to do things. Is that okay?"

"ah?"

Lin Caisang opened her mouth, stunned by his words.

Does Zeng Yulang want to follow her? No, he's a scholar. Is it really okay to follow her like a bad doctor?

Moreover, she even lost her entire shop to him. This was a big, money-losing deal. It cost her a lot of money. If it were her, she would definitely not do such a thing.

She looked at Old Man Zeng and felt that he would definitely scold Zeng Yulang, his cheating son, to death. Who knew...

"Yulang, you have a good idea."

Old man Zeng actually clapped his hands, his eyes bright and loudly praised his son's good idea.
