Chapter 568 Don't Eat Me

"Cousin?"

Lin Caisang sneered. 69shux.com

"Can cousins get married in your place?"

What is this? She was actually shocked. What should she do?

"Every meter has three thousand miles, and one family naturally has thousands of miles. Ziyou's parents are just a side branch and have not been reused. If Ziyou hadn't had such ability, the clan would have given up on their family long ago. The rest of the family is really After all, he has no blood relationship with that cousin."

Yamolian said.

In families like theirs, there are many adopted sons and daughters. It is not surprising that anyone with some ability can change their surname and become a member of their clan.

"Okay, put on your clothes."

The wound on the back has been treated with medicine, but it is not suitable to be bandaged on such a sultry day, so I can only wear clothes.

"Try not to move too much in the past few days, and be careful when walking. It is best to lie in bed for a few days, so as not to injure the wound again. The weather is hot, and if the wound is not good for a long time, it will suppurate."

she warned.

"good."

Yamolian nodded.

"Sonny, have you been to Jian'an City?" he asked.

"I just came back today. It's the last time. I don't have to go back in the future." Lin Caisang replied.

"By the way, I have taken the two father and son of the Zeng family into my own hands, and asked them to contact your people if anything happens in the future. Is there any problem with this?"

Thinking of her previous instructions to Old Man Zeng and Zeng Yulang, she asked Ya Molian again.

"Won't."

Ya Molian shook his head, put on his clothes and stood up.

"I'll just let Ban Jue send a message later. Have you had dinner?"

"Nope."

She had eaten nothing. Grandpa, grandma and the others didn't know whether they had returned from Menghuang Mountain.

"I just packed some things and came out. There should be someone at home now. You can rest, I'm going back."

After saying something to Ya Molian, she walked away. When she walked to the yard, she thought about it, then went to the kitchen, found Ban Jue and Ban Wu, and gave them the medicine to show them. There is a little bit of lotus on the cliff.

This person has always liked to show off his talents. If she hadn't been watching over him, he wouldn't have known how long it would take for the injury to heal.

"Make something lighter, not too greasy."

"Okay, Miss Lin, do you want to eat here?" Ban Wu responded and asked her again.

"No."

Lin Caisang shook his head and refused.

"If I eat here, that stupid Jiang Zuo will eat me later."

She had just sent his sweetheart to the Golden Pearl Dimension to be a slave. What should he say if he asked? She wouldn't say anything anyway.

"Miss Lin, don't be angry with Jiang Zuo. He is also anxious. He will understand after he calms down in a couple of days." Ban Jue said a kind word to Lin Caisang on Jiang Zuo's behalf.

No matter what, at least Sui Ziyou's life is still saved. It's better than dying now and turning into a handful of loess immediately, right?

"What can I be so angry about?" Lin Caisang glared at him angrily.

To put it bluntly, what does she have to do with Jiang Zuo? If it weren't for Ya Molian, she and Jiang Zuo wouldn't even be able to compete with each other. Why should she care about Jiang Zuo?

"It's just that Jiang Zuo's endurance is indeed a little bit low. He should exercise hard. No matter when he encounters any danger, he must keep a brain for thinking. Otherwise, what will happen in the future? The dead ones don't even know.
