

Star of Space 569

Chapter 569 Can't leave him behind

Okay, I won't tell you anymore and I'm going home.

Waving her hands at them, she turned and left.

...

In the golden bead space.

After Lin Caisang chatted with his family for a while and talked about things on Menghuang Mountain, he came to his room and had time to come to the Jinzhu Space.

But he saw Sui Ziyou sitting on the ground, looking at several jade books intently.

"Ziyou." She walked over and called her.

Sui Ziyou raised his head and looked at her, "Master, are you coming in?"

Lin Caisang almost choked to death when she called her "Master", "What do you call me Master? Just call me by my name from now on."

This is Ya Molian's cousin. Even if she lives thousands of miles away from her as Ya Molian said, she can still be called a relative. It is not appropriate to call her master.

"Then let me call you sister-in-law." Sui Ziyou thought for a while and asked.

Lin Caisang: "..."

Just now Ya Molian said "sister-in-law" when introducing her to Sui Ziyou, but the situation was urgent at that time and she had no intention of correcting anything. However, she is really not Sui Ziyou's sister-in-law now.

"Sister-in-law, Brother Mo Lian is joking with you, don't take it seriously."

"how come?"

Sui Ziyou disagreed with her words.

"Although I'm not familiar with Brother Mo, I also know that Brother Mo has always had the same character. He said that you are my sister-in-law, and you will definitely be his wife and sister-in-law in the future. I, Brother Mo, can't be a better man. This There will never be another one in the world, so you can't leave him behind."

Lin Caisang: "!!!"

This girl really worships Ya Molian as a god. Doesn't it mean she's not familiar with her? Can this be so worshipful?

However, even because of Jiang Zuo, Sui Ziyou and Ya Molian should have some contact, but not many.

"You can call me whatever you like. Aren't you used to being in this space? Are you scared when you see those animals?" she asked.

"Won't."

Sui Ziyou shook his head.

She had already died once, so how could she be afraid? It would be the animals who would be afraid of her in the future.

"Those animals are quite docile and won't bite people. I just went to see them."

"Sister-in-law, it is written here that if I want to go to the medicine garden from here to take care of the medicinal materials, you must take me there, and I will have to trouble you in the future." Sui Ziyu looked at the jade book and faced Lin Caisang spoke.

"Don't rush to Yaoyuan. I'm thinking of helping you build a small bamboo house here first. You can't come here and not even have a place to live, right? You'll make do with it tonight and sleep in the carriage. Night."

Lin Caisang said.

It was only after Sui Ziyu came in that she remembered that nothing was prepared in the Jinzhu Space. When she was in the Medicine Garden Space, she couldn't prepare anything because all wooden things would eventually turn into nutrients.

Now that there is space for the ranch, all the necessary equipment for food, clothing, and housing should be prepared.

Well, let Jiang Zuo prepare all these things, keep him busy, and save him from having to think about things in his spare time and make himself nervous!

"Are you hungry? I brought you something to eat."

"Um."

Sui Ziyu nodded, took the food from Lin Caisang's hand, and ate it with big mouthfuls, regardless of whether it was the exquisite food from before.

Lin Caisang felt happy when he saw her like this.
