

Star of Space 575

Chapter 575 The sorrow of not having enough to eat and not having enough clothes to wear

As for Zhou Liang...

A person who doesn't even know how rice grows wants to imitate her skills, so she can only give in.

"Just him?"

Lin Changhong also looked full of contempt.

"It's true that ugly people often do mischief. If you don't know how to read day by day, you just follow Liu Yushui and come up with evil ideas. Sooner or later, Old Master Zhou will be pissed to death by his grandson."

Hearing this, Lin Caisang raised his eyes and glanced at his brother lightly.

"If he reads seriously, I should be anxious."

"Indeed. Lin Changhong nodded.

"Brother, I have to go to the county in a few days. It will take several days to come back. I'll leave the affairs here to you. Don't let people like Zhou Liang come up." Lin Caisang warned.

Although she has nothing to be afraid of, Zhou Liang is really a scourge to the Lin family, and he is the kind that cannot be eliminated.

"You should also go and take a look." Lin Changhong said.

"Now Zhong You doesn't go to the county anymore, he just works here with us, Sangsang, you have to keep an eye on Wei Juxiang, but when you come back this time, you have to bring a few taels of silver

back, although Qiu Wei still has Good morning, but the money from Brother Changfeng should be accurate, otherwise it would be bad for Third Aunt to keep thinking about this matter. "

"Um."

Lin Caisang naturally knew this and nodded.

The day of autumn will come in the blink of an eye, and she should get ready. Then she will have to accompany Lin Changfeng to Ye County. Naturally, this is just in case, in case the Zhou family does something again. What kind of monster is it? If she goes with you, if you encounter any difficulties, you can always find a way.

"Brother, please let these people go back and tell them that next year our family will plant two crops of rice with the people in the village and ask them to stop farming here. It's useless to look at it this way."

Suddenly, she said.

"Oh, Sangsang, what you said is true."

As soon as she finished speaking, she heard a woman scream far away from them and looked towards her with a face full of joy.

Lin Caisang: "!!!"

How come these ears are so long that I can hear her words from so far away.

Then did she also hear the other things she said to her brother? It seems that whatever happens in the future, we have to talk about it at home.

"Aunt Tao, have you been staring at me?"

She looked at the woman angrily and asked half-jokingly with a smile on her face.

"Hehe, aren't I... a little closer? Don't worry, Sangsang, I didn't hear anything else, not at all." Aunt Tao laughed and took a few steps closer to Lin Caisang. , assured her.

"Okay, I know Aunt Tao has always been a strict person." What else could Lin Caisang say?

There was no three hundred taels of silver in this place. Did she have to force Aunt Tao to admit that she heard everything they said?

"That's right, your Aunt Tao and I have a very strict mouth." Aunt Tao high-fived her when she heard her words.

"Sang Sang, what you said just now is true. Are you really going to take us to plant two crops of rice next year?"

Thinking of what she heard before, she asked Lin Caisang again.

In fact, each family has quite a lot of land, but they only have to plant rice for one season, and then it is flooded by rain, and then it is flooded by drought, so they have to worry about not having enough to eat or clothing to keep warm.

If we could grow two crops of rice, the first season alone would be enough to feed the family if it was not destroyed by drought.

"If we can really grow two crops of rice, I will have to ask my family boss to convert more dry land into paddy fields. That would be great."

Just thinking about it made her feel excited.
