

Star of Space 576

Chapter 576 Worrying about your reputation

"Then go and change your family. I will definitely take the villagers to plant two crops of rice next year." Lin Caisang said to her.

"However, your home has a lot of land. It would be great if you could dig out a small puddle to store water. If it really comes into the dry season, you can irrigate with water from the puddle and you won't be able to survive the drought.

Don't be afraid that you won't be able to grow rice or anything else on that bit of land. You see, I have dug twenty acres of ponds on this mountain specifically for water storage. They will definitely be used. "

"Okay, okay, I'll let my boss do it." Aunt Tao responded quickly.

"Not only do you have to dig a puddle, but you also have to build a thorn fence around it. Otherwise, the children in the village are very naughty and want to play in the water. It is very dangerous. Ye Yan"

"Um."

Lin Caisang nodded.

After saying a few more words, Aunt Tao left in a hurry.

"Sang Sang, are we really going to teach the villagers to grow two crops of rice next year?" Lin Changhong asked his sister.

His girl is already so busy every day that her feet never touch the ground. If she has to teach the villagers, she won't even have time to sleep.

"Are you too busy to come over?"

"You have Ah Nai and the others. They don't know how to plant it. It's actually a matter of time. When the time comes next year, just ask everyone to plant it with us." Lin Caisang replied.

This is how everyone grows rice, and you can learn how to raise seedlings and transplant rice now. When they were growing rice, if all the men in the village didn't come here to earn wages, who wouldn't be able to learn it?

In other words, this is a job that can make a living for oneself. If you really can't learn it, then you will have been a farmer for so many years. 6

"That's right."

Lin Changhong nodded. It was Sang Sang's turn to do this. He could do it well.

...

The news that Lin Caisang would help everyone plant two crops of rice next year spread in the village. As Lin Caisang's elder, the head of the Lin family was the first to come to the Lin family to talk.

Of course, Chief Ya had a chance encounter with her on the road before, and they talked about two crops of rice.

Lu Qiubo greeted Chief Lin into the main room, and it was just dinner time, so he brought him a pair of bowls and chopsticks.

"Sang Sang, I heard from your uncle Jiu's family that you are going to plant two seasons of rice with everyone next year?" Chief Lin took a sip of the rice wine that Lin Baiyi poured for him and asked Lin Caisang bluntly.

"I have this idea." Lin Caisang also nodded honestly.

She is planting two crops of rice today just so that everyone can follow her example next year, so she will naturally implement it.

"You kid, I don't like to talk about you, you are really not good at this...what can I say about you?" Patriarch Lin saw her admitting, with a sad face and a bit of reproach in his tone. .

"Then what should we do according to the patriarch's wishes?" Lin Caisang asked.

She knew that the Lin clan and the Ya clan had always been at odds with each other. Previously, the Ya clan leader had spoken rather tactfully, saying that as long as she could lead the Ya clan to plant two crops of rice, he would definitely not treat her badly.

He also told her about his personal feud with Patriarch Lin over the years. Of course, the good words were all directed towards himself.

"I don't think this is a good thing. It should be shared with the people in the village."

"A good thing is a good thing, but you said it too early." Patriarch Lin reminded her.

"Those people in our village, those who talk about being virtuous, are fine, but those who don't talk about being virtuous, you haven't planted the second crop of rice yet, they might say you are a bad person. What's it like? Hey, I'm worried about your reputation."
