

## Star of Space 588

Chapter 588 Is what you said true?

She explained helplessly.

Regarding this point, she is actually very helpless, okay? But the fact is this fact, what can she do?

"If those people are left there, will they still have a chance to come out?" Ya Molian asked her.

"I don't know, it depends on my mood." Lin Caisang raised his eyebrows and said.

Ya Molian: "!!!"

She could predict that this girl would be in a good mood when she was with him in the future, because he would not allow her to be unhappy.

But at the same time, he also knew that this girl was a person who could be kind-hearted if she was coaxed casually. No matter what secrets she had, if these people went in, he would never allow them to come out again.

But.....

Will Sonny listen to him in the future? Haha, he should take it easy.

"Let's let Ban Jue take them away." After thinking about it, he said.

"Why?"

Lin Caisang was confused. Why did he suddenly make such a decision?

"I think you already have Ziyou over there to help you, so there's no need to let those people in." Ya Molian explained seriously why she wanted to get those maids away.

Lin Caisang: "???"

Brother Melian, are you sure what you said is true?

By the way, is Sui Ziyou your cousin? Even if he doesn't know how big her golden bead space is, he should know how many animals he has caught for her, right?

Is it really okay to keep your cousin so busy?

Although I'm not really busy, I just feed them a few meals occasionally. At other times, the animals can forage for food on their own, not to mention the medicinal materials. You don't even need to touch them, just let them grow freely. .

"Then if you want to be banished and taken away, then take him away."

Although she thought so, she still expressed her position and agreed with Ya Molian's words.

To be honest, she didn't want these people to go to the Jinzhu Space. It was as if she had deprived these people of their lives. It was quite cruel. It would be better to let Ban Jue take them away and keep them out of sight.

...

After going back and forth to Ye County, it was already dark when Ban Jue came back again. By the way, he bought back the nun Lin Caisang had taken a fancy to from the tooth shop. After bringing the people, he picked out the four people. After they came out, Ya Molian asked Rang Ban Jue to send a message, and asked someone to come and take away all the fifteen people directly.

Early the next morning, when the three of them set out on the road to Ye County again, they felt a lot more relaxed.

In Ye County, the signboard of Baiwei Snacks has been hung up high. The person she arranged for Baiwei Snacks was Zhang Shunlai, who had been waiting at the door early. When she saw them coming, she hurried forward to greet them.

"Miss, you are here. Everything is ready here. The boys who should be recruited have also been recruited. Knowing that the lady is coming today, the villain notified them early in the morning to wait for you, miss. The people recruited outside, I don't dare to make the decision, I have to ask the lady to pass by."

Zhang Shunlai welcomed the person in and said as he walked.

As soon as Lin Caisang and Ya Molian entered the door, they saw a group of young people standing, already waiting for her.

"Everyone, come here to meet Miss Lin, the owner of our Baiwei Snacks." Zhang Shunlai shouted to those people, and they all took two big steps forward and bowed to Lin Caisang.

"I've met my boss lady."

"Um."

Lin Caisang just nodded his head lightly and turned to look at Zhang Shunlai.

"Lao Zhang, I told you before that Baiwei Snacks has three floors and three people in charge. How are your arrangements?" she asked.
