

Star of Space 652

Chapter 652 Is there something wrong?

"Um.

Old Man Yun stared at Chief Ya and responded softly to the old woman.

Chief Ya felt that his scalp was numb due to being stared at by Old Man Yun, and he could no longer feel the pain in his right hand.

"Aunt Zhuo, I'll leave the matters here to you."

Ban Jue had no time to stay here any longer, so he explained to the old woman and prepared to leave.

"Chief, please rest assured, I will definitely handle things here properly." Aunt Zhuo said respectfully to Ban Jue.

"Um."

Ban Jue nodded slightly, looked at Chief Ya again, and then left.

...

Three days later.

Marriage affairs broke out almost all of a sudden in the Ya clan leader's family. The grandchildren got married at the same time, and the granddaughter still found a son-in-law. For the people in the village, it was simply incredible.

No one has seen Yun Mo and Yun Xiang, and they don't know what they look like. However, in the past three days, Old Yun has become acquainted with the people in the village, and they are always talking and laughing together.

Chief Ya, however, just shook his head and followed Old Man Yun.

Although the expression on the face could not be said to be gnashing of teeth, the look in the eyes secretly hated the three old men Yun, and I was afraid that they had cursed the three of them countless times in their hearts.

"I can't believe you can come up with such an idea."

In the Lin family yard, the basket on Lin Caisang's back was unloaded by Yamolian. It was filled with herbs that she had picked from the mountains.

"I can't kill him, I can only find someone to watch." Ya Molian said.

Looking at the medicinal materials in the bamboo basket, he couldn't help but frown, looked at Lin Caisang with some disapproval, and spoke.

"Sonny, don't you have...a medicine garden? Why do you still go to the mountains to collect medicine?"

Now when it's not colder, most of the wild beasts in the mountains are out, especially those snakes and insects. They might be at your feet at any time, which is something that is impossible to guard against.

"Some medicinal materials can only be collected in the mountains." Lin Caisang curled his lips and said.

In her medicine garden space, there are really some medicinal materials that cannot be grown. For example, those lowest-grade medicinal materials with little medicinal properties will be directly considered as fertilizer by the medicine garden space.

But she must use these medicinal materials, so what should she do? I can only pick it.

However, the main reason is that the medicinal materials on the mountain are also medicinal materials. If they are not harvested at this time, they will wither and become useless when winter comes.

It would be better if she picked it up and put it to great use.

"I thought Ya Yulan was a pretty good person before. Wouldn't it be inappropriate for you to assign him a subordinate like this?" she asked.

She had met Ya Yulan a few times. He was a very honest young man. He would just read it with a book every day, but he never mentioned that he was going to be a child scholar or something.

Now that Ya Mo Lian has been directly matched with a daughter-in-law, she always feels... a little bit like that!

However, you can't just look at people by their appearance. Although Chief Ya was a bit picky in the past, she didn't realize that he could be such an insidious and vicious person. For such a small amount of money, he actually hid in the haystack of her house. Eavesdropping on Ya Molian's family.

Could it be that whatever happened to her family in the past, the insidious leader Ya heard about it?

You know, her room was right on that path. When she poked her head out of the window, she saw that pile of grass.
