

Star of Space 655

Chapter 655 How much was dug?

"I'm going to look outside later. I can't look for the ones in front of my house. I have to dig farther away. If it's too close, people will definitely think of us, so I have to dig further away.

Now, no one in Yacun knew that she and Liu Yushui were hungry. If someone lost something and it was so close to their home, they would definitely come looking for them.

"Well, it's better to be farther away." Liu Yushui nodded.

"Mom, let's do this. If you want to dig, dig more. Just save enough for us to eat at once. Even if they are really discovered, they have no evidence to prove that it is us, and they can't do anything to us."

The difference between digging a few and digging dozens is that they can eat a few more meals.

Moreover, the sweet potatoes now should not be big, they are still very small. Dozens of them are probably not enough for them to eat several meals.

"If you put sweet potatoes at home, people can always see them, right?" Liu Yushui asked worriedly.

"Then don't leave it at home. Go to a deserted place, dig it out and bury it in the soil. Then dig it out and bring it back when no one finds it." Liu Yushui reminded.

"Yes, let's do it."

Liu Rumei also thought this method was good, so she did it.

...

At night, everyone had fallen asleep deeply. At this time, in Liu Yushui's room in the Liu family, the lights were dark, and three people gathered around and gnawed sweet potatoes.

Because she was too scared, Liu Rumei took the sweet potatoes back without washing them thoroughly.

When they ate it into their mouths, there was a "kaka" sound, but the three of them still ate it with gusto, and they didn't feel that the sweet potatoes were bad at all.

"Mom, how much did you dig and did you fill it with soil?"

Liu Yushui asked Liu Rumei while nibbling raw sweet potatoes. Although they were not afraid that the matter would be leaked. They hid the sweet potatoes outside anyway, but they should try not to be discovered if they could. In this way, they could go again then. dig.

Even if it's not that family this time, they can go dig something else in other people's fields. In this way, they will never be hungry again.

"If you fill it in, it shouldn't be discovered."

Liu Rumei stuffed the remaining sweet potatoes into her mouth, wiped her face with her muddy hands, and stood up.

"Yushui, after you eat, go to bed quickly. Mom is going there too. If your father finds out, he will definitely be suspicious!"

Of course Liu Baixiao would not suspect them of going out to dig sweet potatoes, but he would definitely suspect her of stealing the family's food to make food for Liu Yushui. In that case, the two of them would definitely get beaten.

"Well, okay, okay."

Liu Yushui was still eating, nodding to Liu Rumei.

And that little girl, because Zhou Liang was coming tomorrow, was also given three small sweet potatoes to eat. Because she was so hungry, she had already finished eating. She glanced at the faces of Liu Rumei and Liu Yushui under the moonlight, and then secretly He crawled into the corner and huddled.

She is full now and will soon have enough strength to run, right?

She had already secretly figured out that her deed of prostitution was on the body of Liu Yushui, a big-bellied woman. As long as she secretly found the deed of prostitution, they would never be able to do anything to her again.

...

It was night, and the lights were still bright in the bamboo house in the forest.

Ya Molian directly brought Lin Caisang here. At this moment, she was sitting aside, listening to Ya Molian discussing things with several subordinates.
