

Star of Space 656

Chapter 656 Don't you want to save those people?

Listen, it seems that this matter is quite difficult. With Ya Molian's ability, he is still frowning.

"Brother Mo Lian, I'm sleepy."

She held her chin, squinted her eyes slightly, and looked at Ya Molian's figure through the slits of her eyes, a little blurry.

"Are you sleepy? Do you want to go take a nap first? I still need some time here." Ya Molian stopped the discussion with her subordinates, came to her side, and asked.

Hearing this, Lin Caisang took a deep breath, cheered up, and looked at Ya Molian.

"What troublesome things do you have? Let's talk about it. Maybe I can give you a good idea?" she said.

"this....."

Ya Molian looked at her with some embarrassment on her face.

"Can't tell?" Lin Caisang asked.

"It's not that I can't say it, it's that I don't know how to say it." Ya Molian said helplessly.

"Um?"

Lin Caisang was confused.

She didn't know what to say, it didn't sound like the Ya Molian she knew had said it.

"In recent days, a purple light has appeared on the top of Baiyindian Mountain. It has lasted for more than a month. Many people from all walks of life have gone there to find out." Ya Molian said.

"Then what? Do you want to send someone there too, or do you want to go there yourself?" she asked.

Not just anyone can go up to the top of the Baiyun Peak. That place is a hundred times scarier than the Youxiang River. But few people who go up to the top of the Baiyun Mountain can survive.

"Not really, it's just that none of the people who went to check it came back. I, the Nine Lotus Palace, also sent people and they also disappeared." Ya Molian said.

"disappeared?"

Lin Caisang looked at him.

"How can you be sure that they are missing, or that they are still on the top of the White Blind Mountain? It's unclear."

"Mother, you don't know something. The subordinates in the palace all carry faith eagles. We have made an appointment long ago to release one every ten days. Although it is difficult for people to survive on the top of the White Blind Mountain, the faith eagle wants to fly. It's okay to come back."

One of Yamolian's subordinates couldn't help but interject after hearing Lin Caisang's words.

But so far, not even a single trust eagle has returned, which means that something happened to their people on the top of the White Blind Mountain. Even the trust eagle had not had time to be released, and something happened.

The danger must have come so suddenly that they were completely unprepared.

"The letter eagle didn't fly back?" Lin Caisang also frowned.

It must have been a great danger. Otherwise, how could it have disappeared without even having time to release a trust eagle? Turning her head, she looked at Ya Molian.

"The situation is not yet clear. How could you send people to such a dangerous place?"

Yamolian: "..."

Can he say he is innocent? He also just received the news.

"Mother, the palace master doesn't know about this. His subordinates just heard about it and came here to report it to the palace master." The subordinate replied.

After hearing his words, Lin Caisang knew what was going on.

Ya Molian once said that the 'Nine Lotus Palace' was established with the help of his family. At that time, many forces from the Wei Kingdom would definitely be brought in.

Although he now has control over the entire Jiulian Palace, it is not easy to eliminate all the people inside who have been arranged by others. It must be a process.

"Then you don't want to save those people?" she asked.

Since he is not from Yamolian, what does it matter if he dies or not? It would be clean to die outside.
