

Star of Space 672

Chapter 672 After today, there is no tomorrow

"It's time to use it sparingly. Sangsang, I will tell everyone about this and tell them not to use water indiscriminately. Don't worry, they will still listen to Uncle Jin's words.

"wrong."

Patriarch Lin shook his head after hearing Li Zheng's words.

"What's wrong? Clan leader."

When the Lin family clan leaders saw that their clan leader was doing anything wrong, they quickly gave him a wink.

They also felt that what Lin Caisang said was very reasonable. The water should be used a little less. If it runs out, the crops will bear the brunt, and the people in the village will still be hungry.

"Grandpa Patriarch also feels something is wrong." Lin Caisang smiled.

I have to say that this patriarch Lin's knowledge is really extraordinary, and he can actually think about it together with her.

Hearing this, Chief Lin took a deep breath, nodded, tapped his fingers heavily on the handle of the chair, and spoke to everyone in a deep voice.

"This water cannot be used sparingly, but must be used wisely."

"Does it work?"

Everyone spoke at the same time and looked at Patriarch Lin in confusion.

"Yes, it just works." Chief Lin said.

"It's not just about using it, Sangsang. I think we also need to let everyone know the benefits of digging a pond, so that everyone can be excited about digging a pond. That way, we can plant two crops of rice in our village next year, so we don't have to worry. .

"Haha, Grandpa Patriarch, you really think of me together." Lin Caisang smiled and said.

She glanced sideways at Ya Molian who was sitting next to her, and saw that Ya Molian was also looking at her with a smile on her lips.

"Yes, Sangsang is right."

Patriarch Lin nodded. He was thinking the same thing. He connected this year's water use with next year's water use and let everyone know that digging a pond is beneficial. Then everyone will be willing to spend money to buy land and dig a pond to provide water for next year. .

"Sang Sang, how about this? If I discuss this water issue with your Uncle Jin carefully, we can't let everyone scoop up the water like a honeycomb. There will be no tomorrow after today. Yes, we have also brought up the matter of buying land and digging a pond so that we can use water next year. Now is the time."

"Well, just do as the patriarch grandpa wants."

Lin Caisang nodded and agreed with Patriarch Lin. It was better for Patriarch Lin and the Ya clan to resolve those troublesome matters themselves. She didn't want to cause any trouble.

"Okay, I'll come back to you tomorrow morning."

Patriarch Lin stood up, and after speaking, he said something to Lin Laogeng and the others, and then left with everyone.

"Sang Sang, what's going on? Why did they leave like that?" Lin Baiyi scratched his head inexplicably and asked, still outside the situation.

"Elm head, think for yourself."

Lu Qiubo glanced at his son, cursed, and went to the kitchen.

"Sang Sang, you have given all the water to everyone, can you still take care of it?" Lin Laogan was not worried about anything else, he just asked his granddaughter.

"Grandpa, don't worry. As long as Patriarch Lin and Uncle Jin make good arrangements, they will definitely be able to take care of it." Lin Caisang said with a grin.

No matter how careless she was, she couldn't eat enough by herself and let the people in the village go hungry. If that were the case, she would be drowned in saliva when she went out.

Therefore, no matter how hard it is to take care of it, you have to take care of it.

...

It is said that Patriarch Lin and his group left Lin Caisang's house, and someone expressed their dissatisfaction on the way.
