Chapter 673 Our faces are so big

"Clan Chief Lin, what is going on? Is it because Sangsang doesn't want everyone to use water together and is deliberately making things difficult for us?" The person who spoke out was a clan leader of the Ya clan. He had always been on good terms with the Ya clan leader.

Upon hearing his words, Patriarch Lin and Uncle Li Zhengjin glanced at him with displeasure.

"Old man Ji, why are you talking? Is Sangsang like that?" Patriarch Lin asked coldly.

"Step-uncle, please stop talking. Sang Sang is right. We have to discuss how to use water, and then talk to Sang Sang." Uncle Li Zhengjin also said to the step clan elder.

"I....."

"Lao Ji, just shut up. Don't you think all the crops in the field have been destroyed by drought?" The step elder wanted to speak, but was interrupted by another clan elder.

"That's right, what Sangsang said makes perfect sense to me."

Another clan elder looked at the step clan elder and also spoke for Lin Caisang.

"Who is not selfish? If Sangsang said that water can be provided to everyone, everyone would rush to carry water for watering. If the water is used up in three to five days, what will happen in the next days? Sit and wait for this day. Are all the crops going to die?"

"this....."

"Don't do this or that.

The step clan elder wanted to say something, but was interrupted again.

"We are not pointing out that water will come out of the ground if we step on it. We just hope that the crops can survive and not die from drought. We just hope that everyone can have enough to eat. There is water in the barren mountains of Sangsang. , but the water is also limited. She can't use it for her own crops. Is it possible to provide it for everyone?"

"That girl won't talk anymore, her family has already harvested a crop of rice, even if..."

"Can we really consider it a blessing if people are being polite to us?"

Listening to the words of the elder of the step clan, the two Ya clan chiefs interrupted him coldly. There was not a single word difference between what they said.

"Lao Ji, we must be self-aware. If others don't respect us, we will raise our tails to the sky. We can't even tell the difference between east, west and north. Why should people sacrifice their lives for us who are not relatives? Why are we so big-faced?"

"That's right, Lao Ji, don't say anything like this again in the future. You don't think it's embarrassing, but us clan elders still feel embarrassed on our faces." Another clan elder also said.

Now that the Ya clan leader can't count on them, this step clan boss can't hold them back any longer, right? Otherwise, the Ya clan would just wait to chew the bark.

"This... you..."

The step clan always gets angry when they talk about it.

Did he say something wrong? The Lin family had already harvested rice and a lot of grain. He saw it with his own eyes when sack after sack of millet was transported home.

He didn't ask them to share the food. Do they have to worry about using some of their water now?

"Clan Chief Lin and the elders of the Ya clan, why don't you come to my house now and let's decide on the water issue?" Uncle Li Zhengjin suggested to everyone when he saw that the elders of the step clan had stopped talking. .

There is no need to delay the matter of water. If it is decided as soon as possible, the hanging heart in his chest can be relieved.

"good."

Patriarch Lin nodded, agreeing with Uncle Li Zhengjin's words.

"Lao Ji, if you have something to do at home, please go back first." An elder of the Ya clan said to the step clan elder who just made unpleasant remarks.
