

Star of Space 72

Chapter 72 At worst, I'll take on a few missions

Lin Caisang took it, put it in his arms, and thought about it.

"I want to dig a twenty-acre pond on the top of the mountain before everyone in the village starts farming. There are many people in our village, and the uncles in each family are strong, so it shouldn't be difficult to dig a pond. "

"Twenty acres of pond, are you crazy?" Lin Caihe's eyes widened, feeling that Lin Caisang was simply crazy.

Twenty acres of mountainous land, how much food can be grown in a year, and what use can it be used to dig a pond? If Lin is not crazy about picking mulberries, then he is crazy.

"Of course I can do with my things whatever I want. Do you need to worry about it? Don't always think about dictating to me. I won't spoil you anymore. Lin Caisang glanced at her coldly ,road.

"you....."

Lin Caihe opened his mouth, but nothing could come out.

"Three hundred acres of mountainous land, I think twenty acres of ponds should be enough. In the future, we don't have to worry about droughts that will destroy the grain harvest." Seeing that Lin Caihe stopped talking, Lin Caisang continued to look at Mr. Lin. Gosh, speak your mind.

"As for the mountainous land, I want to make some more moves and reclaim it into terraces or terraces. This will make it easier to grow food. It's just 300 acres of mountainous land. It will take some time to reclaim it. This is a bit difficult."

"It's not difficult, not difficult, not difficult at all." Lin Changhong quickly shook his head.

"Yes, Changhong is right." Mrs. Lin Lu also agreed.

"It's not the season for picking bird's nests now. Everyone in the village has nothing to do. Three hundred acres of land will be cultivated soon. Sangsang, don't worry about this. Leave it to Ah Milk will do it."

She patted her chest and assured.

"Grandma, ask the uncles in the village to help, but you have to pay for it." Lin Changfeng reminded them.

Everyone has a big family to support. How can anyone come and help their family? Even if those uncles are willing to come, they would be too embarrassed to invite them, right?

"Why worry about the wages? Your father is doing craftsmanship, isn't he? Let him go out in a few days and give it a try. Maybe he can make a lot of money." Lin Lu glanced at Lin Baiyi and said.

"Besides, the wages don't have to be paid immediately. They are all from the village. Can't we owe the debt for a while? Old man, do you think so?"

"Yes, Changfeng, your grandma is right."

Lin Laogong nodded, feeling that what Lin Lu said was quite right.

The third child has lived quite comfortably under Baizhong's care over the years. Now it's time for him to repay the favor. Let's talk about the people in the village. Maybe Sangsang has to pay them wages, and they are too embarrassed to take them. What about the wages?

However, one code is one code, and the wages that should be paid still have to be paid, it is just a matter of sooner or later.

"Changfeng, you don't have to worry about these things. You can read at home with peace of mind. We can't delay going to the provincial government to take the examination."

"Brother Changfeng, don't worry about the money. I have been digging for medicinal materials these days. I can earn some money by selling these medicinal materials. If I dig for another month and a half, I can earn more. I will definitely make money from my wages. from."

Lin Caisang thought for a while and said.

She spent every day in the mountains, and it was not in vain. There were a lot of medicinal materials.

Although in order to confirm what she said before, there were not many medicinal materials on the mountain, so she did not carry all the medicinal materials home, but they could still be stored in the Jinzhu space.

If you really don't have enough money, you can't accept a few tasks at worst. How can you treat people without paying the medical bills?
