

Star of Space 734

Chapter 734 Something bad happened!

"It's just two bamboos, I can drag them."

If it weren't for the fact that growing bamboo directly in the yard would frighten her family, she would have wanted to cut down a few more.

"Grandpa Patriarch, why do you have time to come here? Is there no water in the pond at the foot of the mountain? I thought it wouldn't be so fast. If there is no water, I will ask my brother to go to the mountain to bring water down in the evening."

she said.

"you do not know?"

When Patriarch Lin heard her words, he was stunned for a moment, but then he came to his senses.

It is estimated that it was not Sangsang's idea to cut off the water supply in the village, but that Lin Laojie and Lu Qiubo were angry with the elders in the village and stood up for Sangsang.

"what do you know?"

Lin Caisang was confused and puzzled by the question.

The matter of water use was left to Clan Chief Lin. She didn't even ask, so what could she know?

"Grandpa Patriarch, you are here..."

"No, I want to talk to your grandpa about something." Patriarch Lin interrupted her and said.

Since this girl doesn't know, then he should talk to Lin Laogong. It's okay to vent his anger, but he can't really offend everyone in the village, right? Let everyone know that we are wrong, and just shed some blood.

"Oh, my grandpa is at home.

Lin Caisang didn't ask anything, and continued dragging two bamboos into the yard with Patriarch Lin.

In the yard, Lin Laogan and Lu Qiubo had already heard Patriarch Lin's voice, but because they were too angry, they did not take a step outside. They watched Patriarch Lin come in and then greeted him.

"The patriarch is here."

"Old gangster, sister Qiubo, who came up with your idea to cut off the water?" Patriarch Lin looked at the old couple angrily and asked.

"Water cut off?"

As soon as Lin Caisang put down the bamboo, she heard the word "water break" and turned around to look at her grandpa and grandma.

"Why do we need to cut off the water? Grandpa, now is the time to use water. If we cut off the water, we will definitely not be able to harvest much food this year. How can this be done?"

"Why not?"

Lu Qiubo asked her back.

"That food does not belong to our family. Whether other people have food or not is none of my family's business. My family's water can be given to them if they want to use it. If they don't want to give it to them, don't even think about taking away a drop of water!"

Her voice was so loud that it could be heard for miles.

"There are a lot of places to use water on the barren hills of my Sangsang family. Why should I give it to those mouthy people? Oh, I've fed their mouths one by one, so why don't you come and bite my Sangsang family? Such people, Why should we help them? Who do they think they are? Can my family survive without them? "

Outside the yard, the two men who secretly came to inquire about the situation heard Lu Qiubo's words. Their hearts thumped and they secretly shouted, something bad has happened!

"It's all those girls' fault for being so careless. It's hard to gossip about anyone but Lin Caisang. Aren't they seeking their own death? They're also going to hurt us too!"

"You can't blame them. They also said more after hearing what others said. However, I seem to have heard that these words came from the Yaji clan's hometown."

The two men discussed quietly outside the courtyard.

"That Yaji Clan elder is in the same group as the Ya Clan Chief. He didn't get any benefits from Sangsang, but he wants to hurt us all. Looking back, I won't fix them!"

If the Lin family really doesn't give them water, he will definitely have to settle the bill with the Yaji clan!
