

Star of Space 745

Chapter 745 I won't let you go!

She really didn't expect that she could think of such a vicious method.

You have to know how many years Han Chuang, a scholar, studied hard before he could pass the exam. Some people could not get ahead after taking the exam for the rest of their lives. The head of the Ya clan could actually set his sights on Lin Changfeng. How could she tolerate this?

"Since you want to harm my Lin family so much, how can I let you do it? Of course you will strike first."

"Grandpa, how can you be so confused!"

When Ya Yulan heard Lin Caisang's words, she realized that the poison she had just taken was not unjust.

If it were him, he would not hesitate to take action against someone who wanted to harm him. How could he let others harm him first? What's more, Lin Caisang already had the ability to deal with them.

"Dad, you... I thought you were just angry, but I didn't expect that you are really capable of all despicable things." Father Ya also looked at his father with a bitter look on his face.

Before, he was still letting his father do it, but now it seems that his father is really unwilling to kill everyone in their family!

"You, you guys..."

Chief Ya was originally frightened because he had been stuffed with a grain of poison, and when he heard his son and grandson say that about him, he couldn't breathe and fell to the ground.

"Lin Caisang, what do you want? If we die, the people in the village will definitely not let you go! Don't even think about running away, either you or Ya Mo Lian!"

"Tsk, tsk."

Lin Caisang came to him and looked at Chief Ya from above.

"Clan Chief Ya, you really reminded me of this. You said that your family is currently marrying wives and marrying people. If all your family members die and only the Yunmo brother and sister are missing, the government will Who do you suspect, me or the Yunmo brothers? "

She raised her eyebrows and asked Chief Ya.

"you--"

Chief Ya was stunned when Lin Caisang asked.

After thinking about her words, I was suddenly frightened into a cold sweat. If their family died, no need to think about it, everyone would definitely think that it was Yun Mo and Yun Xiang who did it.

But the Yunmo brothers and sisters are so powerful, who can catch them?

In the end, even if they died, their death was not in vain.

"Lin Caisang, you don't have to be proud. Even if I turn into a ghost today, I won't let you go!" He glared at Lin Caisang fiercely and said.

"Ah."

Lin Caisang chuckled.

"Chief Ya, why do you say that? Do I, Lin Caisang, look like someone who can kill people casually? Don't worry, it's just a poison. It's not enough to kill you, but..."

Hearing Lin Caisang say that he would not die, Chief Ya's eyes lit up. However, after hearing what she said next, his pupils shrank and he stared at Lin Caisang nervously and swallowed.

"Just what?"

"It's just that I have poison. You have to take an antidote I prepared every other day. Otherwise, your whole body will hurt as if your bones have been dismantled and reorganized." Lin Caisang said lightly with a smile.

"Of course, although it hurts, you will still not die. You will live for a long time and continue to be in pain."

"you--"

Chief Ya's face was filled with fear as he looked at Lin Caisang.

"Lin Caisang, aren't you afraid of others finding out by doing this? There are so many people in our village, and next to our house..."

"If you don't tell me, if I don't tell you, how will those people outside find out?" Lin Caisang interrupted him and shrugged.
