

Star of Space 757

Chapter 757 It's really dangerous here

"Remember to look for places with downhill slopes, and pay careful attention to whether there are any traces of people or animals rolling over the hillsides." Lin Caisang also added to them.

"yes."

After hearing the words, the guards immediately went to find him.

"etc."

Lin Caisang reached out and grabbed a guard who was passing by her.

"You don't have to look for it. Take a few people to your camp and prepare these things." As she said that, she handed him a piece of paper and asked him to prepare it.

"this....."

The guard hesitated for a moment and looked at the great prince.

"Go get ready."

The eldest prince immediately gave him an order and waved his hand to hurry up.

"Miss Lin, without further ado, I will go look for you with the guards. You..."

"Of course I want to go."

Before he could finish speaking, Lin Caisang said.

Yu Jing said that the place could easily collapse. If she didn't look for it, she might not find the living Second Prince, and her mission would end in failure.

"My eldest prince, please remember to instruct your people not to act recklessly when they find the second prince, and inform me first." She explained.

I forgot to tell the guards just now, what a mistake.

However, there were some things she really couldn't say to those people. She couldn't say it. She knew that the second prince was buried somewhere in this hunting ground, so she couldn't dig it up randomly, right?

Just now she said she was here to save people, and the prince was already suspicious. If she said more, people would definitely treat her as a monster.

"good."

The great prince responded immediately.

...

The efficiency of the royal hunting dogs was still very high. In less than half an hour, they had searched the entire hunting ground and quickly determined the location of the second prince.

When Lin Caisang and the prince heard the guards coming to report, especially when they were brought to that place by the guards, the hairs all over their bodies stood up.

"hiss!"

Lin Caisang couldn't help but gasped.

The slope of this place is the top of the hunting ground with the most prey, but at the same time, it is also the most dangerous place.

At this moment, there was a pile of rocks like a hill in front of them. Even the hounds did not dare to step on them for fear of accidentally falling into the crevices of the rocks. If the second prince was really in this mess, If it were in the pile of rocks, it would be really bad luck.

"I, the king, will go..."

"My lord, no."

The eldest prince was about to go over, but was stopped by the leader of the guards on the side.

"My lord, this place is very dangerous. If you accidentally step on it, you will also fall into the pile of rocks."

"I can't control this much anymore. Didn't you say that my second brother is in there?" The eldest prince couldn't care less whether he was in danger or not. When he thought that his brother was in there, he wanted to rescue him immediately.

"Your Majesty, I'm just saying it's possible. The Second Prince may be inside, but it's not certain." The leader of the guards said.

"possible?"

The great prince sneered.

"I still trust the noses of hunting dogs. They have arrived here one by one. How dare you tell me that it is not certain?"

"this....."

The leader of the guards pursed his lips and did not dare to speak.

"Your Majesty, he is right, it is indeed dangerous here." Lin Caisang said something for the leader of the guards.

As a bodyguard, seeing that a prince was already trapped in the rocks, how could he allow another prince to be involved in danger? Something happened to two big shots. Do they still want to survive?

"Miss Lin..."
